Marc Eagan wins Mid-Winters repeats victory of 1975

By Debbie Peterson

Current North American Flying Scot champion Eagan won the Panama City, Fla., Mid-Winter regatta sailed from St. Andrews Bay Yacht Club.

Eagan had won the Mid-Winters once before, in 1975.

Ed Turnipseed—Eagan’s regular crew in the other championships—tended jib along with third crew member, Gayle Entringer.

Marc calls New Orleans home (although he could also claim Bay Waveland, Miss., and currently New York City). The second place finisher also hailed from New Orleans. He was Hoagie Herman who got crewing help from Bobby Eagan, same town, same Eagan family but two years younger.

Former NAC champion-three times- Tom Ehman finished third. In 13th and 16th place were two skippers who might have given Eagan a closer run, except for the one race in which they were disqualified. John Heath of Bay St. Louis Miss., had one second and a first the last race, but a disqualification in the second race put him out of contention.

Gordon Bowers, last year’s Mid-Winter champion, disqualified himself after winning the first race. He finished first and fourth in the next races. Bowers hit the weather mark. In rerounding, Bowers and Eagan were involved in a rules violation. Bowers started to turn 720 degrees to absolve himself, but in the confusion failed to complete two full circles. Eagan protested. But Eagan had failed to fly a protest flag, so the protest was disallowed. Yet Bowers voluntarily disqualified himself, giving up his first place finish in the initial race.

Results of Championship Division

1. Marc Eagan 95
2. Hoagie Herman 108
3. Tom Ehman 100
4. Mike Douglass 117

SCOTS N' WATER
Trophy winners and Panama City, Florida hosts are, left to right, Allen Douglass, regatta chairman; Mike Douglass, fourth place finisher; Hoagie Herman, second; Marc Eagan, champion; Tom Ehman, third, and Commodore Lytle of St. Andrews Bay Yacht Club.

Winds from 17 to 20 knots prevailed for the three-race elimination and through two championship races on Saturday. The bay was calm Sunday morning. Finally, after several delays, the race committee started the race on breezes that made up to 5 or 7 knots.

Farley Fontenot from Lumberton, Texas, won the Challenger division, beating Jerry Dees of Fairhope, Alabama, in the Saturday races. Dees finished second on Sunday, but Fontenot was not far behind in fourth place to assure his title.

Farley Fontenot appeared to be headed for the championship series in qualifying races, but was over early in one race. Fontenot did not get his notice until halfway up the weather leg and chose to withdraw.

In the qualifying series—where skippers are divided into A, B, C, and D fleets and sail a round-robin—Paul Schreck, another repeat champion, won two first places.

Challenger Division

Flying Scot® Sailing Association
Sandy sounds an alarm

By Gordon K. Douglass

Last year, for the May, 1977, issue of Scots n' Water I wrote an article under the title "What Price Gold Plate." In the article I tried to raise the alarm over the steady trend in the Flying Scot Class toward what can be called gold-plating, toward developing the Scot into a complicated and expensive racing machine. There was no response. Apparently the individual owner has the attitude that "it can't happen to me. After all, nothing of consequence is going on."

But it is happening although so slowly—and inexorably—that it is not readily evident. I think no exaggeration to say that my Flying Scot 1350, in which I won the North Americans in 1971, today would be shunned by our top-flight skippers as not even being a racing boat because of her lack of hardware.

This year, at the Board of Governors Meeting at the Mid-Winters, I gave an impassioned plea for some action to be taken to change our rules, our Specifications, to set a limit to this gold-plating trend before it is too late. I was happy to find that, at last, some others are beginning to realize that I am not just talking. This year I was strongly backed by Second Vice President Allen Douglas speaking for the Gulf Yachting Ass'n; and Treasurer Mike Johnson who, I understand, is slated to be next President of the GYA. Both men expressed their concern over the rivalry between some of the GYA clubs to "out-develop" the Scots of other clubs.

In the past if I had suggested that the time would come when a racing skipper would want to change the shape of the seats, I would have been told I was off my rocker. But this winter we did receive a request for modifying the seats of a new boat.

If we will only look at what has happened to other classes, we will see what is going to happen to us if we do not set a limit. The Star, Snipe, Comet, Lightning, Thistle—all of them started out as simple boats for every-man-use. Today they have become sophisticated and expensive racing machines.

The Thistle, for example, is a very fine boat and the Thistle Class one of the best. But the Thistle has changed so much that almost the only real resemblance between my No. 1, PAUKIE, and today's racing Thistle is in the shape of the hull. Today's boat is a sophisticated gold-plater with all the gadgets including a new bendy spar. An article in the February-March issue of the Thistle BAGPIPE shows sketches for "Centerboard Trunk Control Systems," one of which alone involves some 24 pieces of hardware.

The Thistle is a high performance boat, and this "Development!" may have been the best course for the Thistle. It is futile to speculate. But the Flying Scot does not fit that category; she is not a "high performance" boat, and adding hardware is not going to turn her into one. Instead, as a comfortable and all-around boat of good performance, we are out-selling the Thistle two to one. In that same BAGPIPE, 37 used Thistles are offered for sale, while our Scots n' Water shows six Scots. Is there some connection? In spite of, or because of, the Flying Scot's character she is highly regarded for Sears, Adams, Mallory

---

Are you in this picture?

If not, you still have 160 more chances of being in one!

SCOTS N' WATER
Designer urges Scots draw the line on holes in deck, 6 hardware items

and Championship of Champions competition. Let’s not lose that character. It is our greatest asset. People buy the Scot because she is not complicated.

You may ask how this affects you. You do not intend to put a lot of gadgets on your boat. Perhaps you do not even intend to race or, at the most, not seriously. But it does affect you because, if for no other reason, your boat represents a considerable investment—collectively, it amounts to close to ten million dollars and the value of your boat depends on the health of the Class, the demand for Flying Scots because they are one-design. And do not forget that, in spite of all the noise, our avid racing skippers, the ones who do the “developing,” are a small minority of perhaps ten to twenty per cent. They are the vocal ones at the meetings. It is up to you, every one of you, to make yourselves heard through your fleet.

Our top skippers, individually, tell me they would prefer a truly one-design boat with everything equal, but that if the others are going to develop their boats, they will too. To reach a common denominator will each be willing to give up a little something?

I believe there are certain changes we should make. For example, there are capsizes in bad weather and in some cases the flotation foam comes out. We find that in many, or most, cases this happens because some young genius has cut the strap holding the foam in order to change or install deck hardware, and has not properly reinstalled it. Before we have a fatality, for our own protection, I propose that we should have a new rule that:

1. The flotation gear is not to be cut loose under any circumstances; and any boat found to have the foam inadequately fastened shall be disqualified until the foam has been properly installed by a competent fiberglass man.

Holes cut through the deck and/or seat for spinnaker or other uses destroy the water-tightness of the deck and could lead to a drowning. I propose that:

2. No holes shall be cut through the hull or deck other than the proper drainage holes through the transom.

Somewhere we must draw the line. I believe that our easiest and surest way to control the hardware race is to set a maximum number for the pieces of hardware which may be added. I propose that:

3. Not more than six items of hardware may be added to any Flying Scot in addition to those normally provided as shown on the Official Plan.

Hardware items of similar nature and for the same purpose may be substituted in the same place.

What can you do? Persuade your friends to re-read the “What Price Gold Plate” article. Then get your fleet to send in proposed Amendments to the Chief Measure as outlined in Article XX—Amendments, Par. 3. Go to it. Time’s awasting.

‘Outstanding fleet’ to be judged again

By Don Hott

The Board of Governors announces that the “Outstanding Fleet of the Year” competition will be held again during the 1978 sailing season.
Fleet 30, Crab Orchard Lake, Carbondale, Illinois, now temporarily possesses the Permanent Trophy, recognizing Fleet 30 as outstanding in 1977. This trophy was presented to the FSSA in 1977 by Fleet 48, Lake Norman, Charlotte, North Carolina.

Will your Fleet take this handsome trophy away this year? Not unless your Fleet Captain submits his “Score Sheet” to the Association Office before July 1, 1978.

The “Outstanding Fleet” will be that fleet scoring the greatest number of points on the “Score Sheet” which tests various factors involving quality of fleet activity. Scoring is so designed that a big fleet or a small fleet, an old fleet, or a new fleet can win.

Various factors which are scored include longevity, size growth, participation in local races, in district regattas, in North American Championships, use of the Scot in Junior program, fleet reports and articles submitted in Scots n’ Water, local publicity, hosting a North American Championship, a regional regatta, or a district regatta, creative ideas for fleet growth and activities, individual memberships in USYRU.

District Governors may want to award District Outstanding Fleet of the Year awards to the highest scoring fleet of their districts. Each District Governor will receive a copy of the “Score Sheet” submitted by each fleet in his district.

Your Fleet Captain should receive the “Score Sheet” by May 1. If your fleet really wants to win, there are a lot of things which can be done to gain additional points before the competition closes on July 1. So, get busy, have a Fleet Meeting, get to work, and make room on the shelf for that “Outstanding Fleet of the Year” Trophy.
BOWERS
SAILS
TAKES
FIRST
AT SCOT
MIDWINTERS

Following a three-year period of exhaustive design research in producing winning Flying Scot sails for local competitors, our sails were aboard for their first national championship regatta of this class and took a first and second in the two-race series.

The overall wins at the 1977 Midwinters Regatta, held at the St. Andrews Bay Yacht Club, Panama City, Florida, simply proves the analysis of pictures taken from inside and outside the boat, combined with local fleet racing results, and the knowledge gained from 10 years of sail making for scows produces winning sail speeds.

The Bowers all-weather, hard finished yarn tempered mains and jibs combined with the all white, low stretch, cross cut Dynac spinnaker provides a suit of winning sails for all Flying Scots.

(Competitors, take note:) The picture analysis above is two years old, but now that we have the winning patterns, anyone can sail faster with a suite of Flying Scot sails from Bowers.

Heath, Hauserl, Taggart win in New Orleans regattas

Fair weather, mild temperatures and light to medium breezes on Lake Pontchartrain dominated both the Sugar Bowl and Marci Gras Regattas.

Some twenty Scots, part of a fleet of more than 200 boats in a variety of classes, answered starting cannons of the Sugar Bowl Regatta, sailed on December 31—January 1.

John Heath, from Bay St. Louis, Mississippi, won the open division. Buddy Eagan of New Orleans and Dwight LeBlanc III also of New Orleans finished second and third respectively.

Buzzy Hauserl, representing the Bay-Waveland Yacht Club, won the Gulf Yachting Association’s Flying Scot Race of Champions division. Ed Reardon, sailing for Mobile Yacht Club, finished third.

Amid the parades and festivities of Mardi Gras, racing sailors found good competition on the weekend of February 4-5.

Larry Taggart, New Orleans, finished first in the open division with 5½ points. Doug Sansom, Pensacola, Florida, was second with 7¾ points, and Hoagie Herman, New Orleans, placed third with 8 points. The Bay-Waveland Yacht Club team of Chuck Breith, Cindy Stifell and Buddy Eagan won the Gulf Yachting Association’s interclub competition for the John Curran Memorial Trophy.

Transom ports:

By Eddie Sharp
Fleet 42, Washington, D.C.

During the August, 1977, FSSA Annual Meeting, Section 9 was added to Article S-II of the hull specifications. Section 9 states:

Transom Ports are permitted as owner's option to facilitate rescue of swamped yacht. Such transom ports shall be round, 5 inches in diameter, opaque,
How to install 5-inch ‘nickels’

on each side of the rudder post, centered five inches outboard from the center-line of the transom, and 3½ inches above the top of the boot top. The port shall be suitably closed at all time while racing.

Builder’s tests have shown that a swamped Scot rigged with towing bridle and open transom ports will be practically emptied of water in three to four minutes when towed by a 30 horse-power outboard boat. Even if towing of this kind is not available, those of us who have labored an hour or so bailing out a swamped Scot at the beach can appreciate the convenience these ports will allow. The accompanying plan, sketches and photographs represent one method of installing transom ports.

The 5-inch diameter plastic inspection port assemblies (“Lindyar” or equivalent) are available from your local marine supply dealer (approximately $5.00 each) or by catalog. The 5½-inch diameter Hole Saw (Starrett No. 0512) and Arbor (Starrett No. A-2, EDP No. 55142) may be obtained from hardware or mill supply outlets but are rather expensive ($35 to $45) for one-shot use. (See if your local tool rental has them; ours didn’t.) Since a majority of our fleet indicated they wanted to install ports, we voted to have our fleet treasury buy the saw and Arbor.

I have completed the installation on Flying Scot No. 3 and now, on the occasion of the first sunny Saturday in April, we will sail into our sailing marina for the “First Annual Fleet 42 Transom Saw-In” and will install ports on all Scots present.

Location of the port openings were selected to avoid areas of the transom containing internal wood core reinforcement. When openings were sawed out on Flying Scot No. 3, the inboard edges of each opening revealed the beginnings of the wood reinforcing located on the transom (rudder) centerline. Before bedding in the port assemblies any wood core thus exposed should be thoroughly coated with epoxy or polyester resin to seal the exposed wood core against moisture absorption.

You should epoxy cement eye straps on the back side of each port cover. Then a ¼-inch slack line or shock cord may be passed through each eye strap and knotted, thus providing a safety line so that port cover won’t be lost when removed.

The covers may be readily unscrewed by hand. A light coating of vaseline applied to the threads several times per season will ensure easy removal under adverse conditions.

We have appointed a committee to study uses for the 5½-inch sawed out transom blanks. Early reports indicate that they are too big for hockey pucks, but Don Hott thinks they may work out as “West Virginia Wooden Nickels.”
Riverside and Fleet 7 invite early
NAC limited to 90 boats, preregistering ends July 1

By Leonard M. Saari

The 1978 NAC Championship Races will be hosted by historic Riverside Yacht Club and Greater New York Fleet 7 at Riverside, Connecticut, August 7 to August 11, 1978. The Junior NAC Championship Races precede August 5 and 6.

Fleet 7 was established in 1958, when Chuck Rettie and Lew Howe bought Flying Scots—Nos. 27 and 28. Flying Scot old timers may recall and may have participated in past Riverside NAC regattas in 1962, 1968, and 1973. Local skipper Franklin Bloomer won the NAC Championship in 1968. In addition, local residents Bob Vance, who is National FSSA President, Chuck Rettie, and Dave Griffin each won the Challenger Division in 1976, 1968, and 1967, respectively.

Fleet 7 has an active and competitive group of Scots, with over 40 boats registered and over 26 boats qualifying last season. Riverside's Sally Sawyer was both 1977 Fleet Champion and winner of the Long Island Sound YRA Nary Trophy, awarded to the top skipper in the most active fleet of any class on the Sound.

Fritz Trask is 1978 NAC Regatta Chairman with a Steering Committee comprised of Bob(s) Vance, Brady and Hellendale. Thirteen functional committees have been in action for several months.

David Renton, Housing Chairman, has arranged for a block of rooms to be set aside at specially reduced rates at a nearby motor lodge. Details on room accomodations, available camping sites, and a full package of information about the 1978 NAC Championship at Riverside can be obtained by either mailing in the preregistration form printed in this issue or by writing David Y. Monteith, 128 Riverside Avenue, Riverside, Connecticut 06878.

Entries for the 1978 NAC Championship will be limited to 90 boats, with no more than 15 from the host fleet. The Registration Fee of $45 will increase to $55 after July 1, 1978, so preregister now and make room reservations as soon as possible.

Chartering available

Charter boats will be available for this year's North American Championships. The rules for chartering are set forth in Article B-IX, d.(1) of the Bylaws of the Flying Scot Sailing Association. A charterer must be a qualified Flying Scot owner or a active member of the Association who is a member of a recognized yacht club which is a Flying Scot owner and must reside at least 400 miles from Riverside.

Charterers must use their own sails. Charter boats must be returned to their owners at the end of the regatta in exactly the same condition and arrangement as they were received.

Person desiring to charter a boat should write to this year's Chartering Chairman, John Denne, 22 Druid Lane, Riverside, Ct. 06878 (203-637-1350), as soon as possible, but in any event before July 22, 1978. A check in the amount of the $50 charter fee, payable to Flying Scot Sailing Association, must accompany the request.

Notices of acceptance will be mailed by the Chartering Chairman received prior to August 1, in which case the fee will be returned. Otherwise, the $50 will be forfeited.
NAC registration form

Flying Scot American Championship — 1978
August 7-11, 1978
Hosted by FSSA Fleet No. 7
at Riverside Yacht Club, Riverside, Connecticut

Skipper__________________________________Crew__________________________________
Address_______________________________________________________________
City_______________________________________________________________
Fleet No._____ Hull No._____ (Sail & Hull No. must be the same) Boat No._____
Hull Color_________________________Spinnaker Color_____________________

Registration Fee $45 (before July 1st); $55 after July 1st.
(Registration Fee does not include Annual Dinner, Room Fee)

Please make your check payable to FSSA Fleet 7 and mail to:

David Y. Monteith
128 Riverside Avenue
Riverside, Conn. 06878

Note: Flying Scot to be registered with FSSA and 1978 Dues paid.

Will attend Annual Dinner_______________Number of persons_____________________
Will want room reservations_______________Campsite_________________________Chartered boat___

JUNIOR NAC REGISTRATION FORM
August 5-6, 1978
Hosted by FSSA Fleet No. 7
at Riverside Yacht Club, Riverside, Connecticut

Skipper_________________________Date of Birth______Crew___________Date of Birth_____
Address_________________________State________________________Zip________
City_________________________State________________________Zip________
Fleet No._________ Hull No._____ (Sail — Hull No. must be the same)

Hull Color_________________________Spinnaker Color_____________________

Registration Fee $20 (Before July 1st); $25 after July 1st.

Make your check payable to FSSA Fleet 7 and mail to:

David Y. Monteith
128 Riverside Avenue
Riverside, Conn. 06878

Note: Skipper and crew must reach their 13th birthday but not their 18th birthday in 1978 to be eligible and be FSSA member.

Howe sails on the cover

A wider angle of the cover picture shows Lew Howe, FS 2828 named "Extra Dividend," rounding the reaching mark to join Scots beating for the finish. Jim Simpson is ahead on the right.

Close work typifies Fleet 7 races at Riverside. To qualify for fleet trophies, a Fleet 7 skipper must sail in half of 21 races. Last year 26 qualified.
SCHRECK SAILS

Our sails have taken every Flying Scot North American title since 1969, except three, and have come in no worse than 2nd in those three. This is an unbelievable average.

A perfect example of how good Schreck sails are: in this years Gulf Coast Championship, the Lipton Regatta, with 18 clubs and 4 skippers from each club, there were 5 of our sails and the rest were a mixture of North, Hard and Murphy Nye. Where did our sails place? 1st, 2nd, 3rd, 5th, and 6th — that is really putting them up front. This regatta puts the onus on sails more than any other.

OTHER WINS:
The Sandy Douglass regatta (65 boats); 1st, Paul Blonski; 3rd, Sandy Douglass. Paul had our old sails. Sandy had new sails. Dick Schultz won the Governor’s Cup. Jeff Stamper won at Washington.

Naturally, we won most of the other districts.

If you want the best, buy our sails.

SWAGING – ALL HARDWARE FOR SAILS – COVERS
RIGGING – ROPE TO WIRE SPlicing
McLane beats 26 in Mid-Winter Warmups

Dunken McLane, Flying Scot Fleet 75, Panama City, Florida, bested 26 boats to win the Flying Scot Midwinter Warmups.

The regatta, sailed on Choctawhatchee Bay at Fort Walton Beach, was held under almost ideal wind conditions. Race 1 and 2 saw Gulf winds up to 18 knots from the southwest, however, on Sunday the breeze hailed north again and averaged 5-7 knots.

McLane, from St. Andrews Bay Yacht Club, was hard pressed by sailors of Pensacola Yacht Club.

Regatta Schedule

If your fleet has a major regatta open to Scots from other fleets, we'd like to include it in the Regatta Schedule. Just drop a note or postcard to Dick Elam, Scots n' Water, P.O. Box 8, Chapel Hill, N.C. 27514. (And don't forget to send in the results after the race.)

April 29-30—Hospitality Regatta, Jackson Yacht Club, Jackson, Miss.
May 6-7—SAYRA Invitational, Lake Norman, North Carolina
May 6-7—Gulf District Championship, Fort Walton Yacht Club Fort Walton Beach, Fla.
May 13-14—Oak Hollow Invitational, High Point, North Carolina
May 13-14—Greater 48 Invitational, Lake Norman, N.C.
May 20-21—Buckeye Regatta, Hoover Yacht Club, Hoover Reservoir, Westerville, Ohio
May 21-22—Texas District Championship, Fleet 32, Houston Yacht Club, Galveston Bay, Tex.

June 3-4—Egyptian Cup Regatta, Crab Orchard Lake Sailing Club, Carbondale, Ill.
June 10-11—F.S. Carolina District Championship, Fleet 27 Kerr Lake, N.C.
June 17-18—Governor's Cup Invitational Regatta, Kerr Lake, N.C.
June 23-25—Greater New York District Championship, Candlewood Yacht Club Candlewood Lake, New Fairfield, CT.
July 1-2—Fourth of July Invitational, Lake Norman, N.C.
July 8-9—Oriental Sailing Social, Oriental N.C.
July 22-23—New York Lakes District Championships, Fleet 43, Skaneateles Lake, N.Y.
July 29-30—Maryland Flying Scot Invitational Regatta, Deep Creek Yacht Club, Deep Creek Lake, Md.
July 22-23—Michigar-Ontario District Regatta, Detroit Yacht Club, Lake St. Claire, MI
August 12-13—F.S. North American Championships, Riverside Yacht Club, Riverside Conn.
Sept 2-3—Labor Day Invitational, High Rock Yacht Club, High Rock Lake, N.C.
Sept. 9-10—Blackbeard Invitational, New Bern, N.C.

WHEN THE GOING GETS TOUGH, THE WINNERS GO NORTH!

During the past two seasons we have worked very hard developing a suit of sails which would be the fastest available for the Flying Scot.

New crew recalls the unforgettable season

By Jim Radtke and Al Cimpermann

Some people say you never forget your first love. We will never forget our first Flying Scot season.

Dr. Jerry Dowe "A veteran Scot skipper" on the Lake Michigan waters of Wisconsin informed us of Caveat

Here We Sit

By Al Cimpermann

Here we sit in the Yacht Club bay where every sailor has his day.

The trophies go to those who've won and they say that racing is just for fun.

The big trophies have all gone to Mr. Pfister I hope he doesn't have an older sister.

Plenty have gone to Mr. Ed Kirkham when he gets a crew he really works 'em.

But the one that the Yacht Club could not allow came from the crew to one Jerry Dowe.

For the Yacht Club was to this crazy crew a place to celebrate, not to sit and stew.

While others could talk of scoring some points we sat back and listened and lubricated our joints.

And some even snickered to say in elation hitting the committe boat means disqualification.

And then there are those who sit back and stare while looking off into the air;
telling us after we returning our boat you got some water on your raincoat.

Are these the things that make us men? They must be for we'll do it all again.

And maybe in the upcoming season we'll have an even better reason.

Beware all you skippers of the Flying Scot you just don't know what we've got.

Jim takes home the spinnaker chute and practices stuffing it into his boot.

Al takes home the main and jib sheet and sleeps with them nightly under his feet.

Jerry takes home the ship's bent boom and works on it daily in his living room.

There just seems to be very little doubt that these are not amateurs we're talking about.

The facts are clear that we've started late and we'll be great in '78.

Emptor last spring and we decided that a trip to Ohio was worth a Flying Scot. We returned to the shores of Milwaukee pulling our Scot behind us. We were now ready to try our hand at crewing to learn the ropes, as it were. Again Dr. Dowe was most gracious and willing to let us work out our mistakes on his Flying Scot number 465 so we readily signed-up to crew for the Wednesday and Saturday racing series sponsored by Fleet 25.

It was an unforgettable season. In our first race we lightly touched the Committee Boat and they politely disqualified us. A week later on a breezeless, sun-filled Saturday in June we not only finished last, we also hit the finishing buoy. We were determined to do better or go under trying, which we almost did.

On a hot humid Wednesday evening in July, we were on our final leg, well in contention, when we noticed a boat that shouldn't be there—was there! We shouted the appropriate "starboard" but to no avail, our slackened main sheet caught the culprit's winch and over we went.

But the season was not yet ended. On a cool breezy September Saturday, as we were rounding the jibe mark, spinnaker full and bringing up the rear, a sudden gust and a flying Chinese yodel jibe caught us by surprise. We went in again. This time completely turtled.

Through it all our skipper was forgiving and kept encouraging us to keep trying. When the season finally ended we presented him with our own trophy and two poems, first Summer Breeze and Winter Freeze and then Here We Sit both written by crewman Al Cimpermann.

Heads Up! This shows what can happen when the aluminum mast contacts overhead power lines. Not only were large portions of the mast head truck melted away, the main halyard vaporized in places. Here we see the installation of a new halyard. Fortunately no one was hurt.

APRIL 1978
Introducing

SAILS by GOLDSMITH

A new concept to combine design, sailing, and service ideas with a sophisticated computer cutter.

Flying Scot, Lightning, Penguin, Snipe, and Thistle sails will be my specialty.

Without the hassle of running a normal sail loft, extra attention can be given to help sell and service each of you. How about
• Extra evening hours for phone consultation
• Special mini seminar with sail deliveries
• Same-day delivery from the latest “batch” with no shape worry due to computer cutter accuracy.

I’m looking forward to offering Flying Scot sails that are cosmetic queens, fast, and easy to use. Call or write if you are interested for the mid-winters. Who Knows, one of us might even win the odd race...

Cheers,

Bruce Goldsmith

SAILS by GOLDSMITH
1140 Chatfield Road
Winnetka, Illinois 60093
312-446-1151

Skipper Debbie Peterson slumps to hike Flying Scot 1849 to leeward. Norman [Pete] Peterson, the crew and father, plays the leaning safer. Near calm winds on Kerr Lake put Petersons to leeward trying to keep a shape in the sails.

[Photo by Margo Burch.]

T-J Sales (and Service) Co.

Sales and service. Sure we stock a large selection of the best no-nonsense gear. But we also provide service second-to-none. Try going to your local (if there is one) yachting store and asking them what you need to put in internal spinaker sheets, or how your class hotshots are setting up their mast rake and rig tension. Then try T-J Sales. You’ll find why we have customers all over the country who keep coming back. For sales and service,

HAWK windvanes. STEARNS life vests. TROPHY sailing gloves. SAMSON and MARLOW white and color-coded line. HARKEN, FICO, BWO, KENYON, SAILSPEED, and HOLT ALLEN blocks and fittings. WACO 360 control cleats. SAILOR’S TAILOR custom fitted cockpit covers, duffle and carry-all bags. CHRONOSPORT “Memorial” and Regatta stopwatches. WETSKINS foul weather gear. MURPHY & NYE and THOMAS custom racing sails. GATOR and E-Z LOADER trailers.

T-J custom-engineered control systems: cunningham, outboard, complete spinaker package, etc.

Used boats, dacron centerboard gaskets, Interlake main cleat brackets, Sunfish and Laser parts and accessories, fiberglass repair, racing instruction.

We’ll ship open account to Flying Scot Class members anywhere in the country. Call or write Tom Ehman (Jr. or Sr.) at:

T-J Sales Company

“We specialize in helping sailors get the most comfort, enjoyment and performance out of their boats.”
Hassell dons Georgia 'Barefoot' title

Kent Hassell beat 16 Scots to win the Flying Scot Georgia Championship in the Barefoot Open Regatta on October 15-16.

Held on beautiful Lake Lanier near Atlanta, the Barefoot Sailing Club (BFSC) had 138 boats to participate in the event this year. Scots came from Alabama, Florida, North Carolina, South Carolina and Georgia. The Scots represented the largest one-design fleet sailing in the regatta.

Winds ranged from 7 to 12 mph on Saturday but increased to a steady 20 mph (with gusts measured over 30!) on Sunday. Fleet 111 was proud to present the award to the new Georgia Scot Champion, Kent Hassell of Fleet 111. The award is given to the top Scot in the Barefoot Open Regatta regardless of state of residence.

Flying Scot winners were:

1. Kent Hassell 2481  BFSC, Atlanta
2. Dick Schultz 1886  North Carolina
3. Floyd Davis 2282  Panama City
4. Jerry Mullis 2279  Panama City
5. Pete Condo 2611  BFSC
6. Harold Wilde 1255  BFSC
7. Paul Newton 2936  South Carolina
8. Larry Hanson 3044  BFSC
9. Glen Myrick 2425  BFSC
10. John Henderson 2308  BFSC

Caveat emptor

APRIL 1978
Secretary counts 132 fleets, 3200 Scots and records words of outside praise

By Hal Marcus

When a leader of another One-Design Class Association tells you that the Flying Scot is an outstanding success, you feel a surge of pride. When he mentions you in an article in his Class's newsletter, you can certainly say, "We're Number One!"

The past president of a prominent One-Design Class Association wrote an article for his newsletter entitled, "Why One Design?"

He writes, "A case in point: The Flying Scot. There is no question that in its size range there are cheaper boats... faster boats... prettier boats... more comfortable boats... and so on. But where are they? Nowhere! They come, they go. And the Flying Scot goes on and on. It is quite probably the most active and popular class on the continent. It is, in fact, a model upon which many other classes build their associations. Why this outstanding success? Very simply, the Flying Scots have maintained their one design outlook. Very, very few changes have been allowed over the years. As a result, there are 3,000 Flying Scots with 129 active fleets. A record to be envied."

These statistics are taken from last year’s advertising copy. Today we boast 132 active fleets, and almost 3200 Flying Scots.

Another home in Indiana

Ralph Bescia reminds us that last September he wrote asking for information about FSSA and that he was shopping for a performance class boat suitable for his wife and kids. He adds that one of his selection criteria was the strength of the class association.

Ralph spent many hours watching different class boats at Lake Cowan near Wilmington, Ohio, the home of Flying Scot Fleet 1. He adds that he was continually impressed with performance of the Scott under varying conditions against other equivalent size boats.

One of our builders promptly visited Ralph for a demonstration. Believe it or not, Ralph has now become a dealer and expects to promote the class at Brookville Lake in Eastern Indiana.

Ralph adds, "My principal purpose in writing to you was to thank you for your prompt response to my September 1977 letter and to thank you for the free 'Scots n' Water' you included. I am sure you get many requests for such information but you seldom hear the results of your actions."

Good luck, Ralph, with your Flying Scot promotion on Brookville Lake. Perhaps this will be Flying Scot Fleet 133.

Used Scots hard to find

We wrote Jack Culley, President of Sailboats, Inc., a Flying Scot dealer in Excelsior, Minnesota, to commend him on the excellent newsletter he puts out. In this newsletter, Jack always lists all the different types of used boats in stock. In our letter, we mentioned that we had never noticed a used Flying Scot for sale in his listings.

Jack replied, "There have been occasions when we have a single Flying Scot listed under our 'Used Boats' category—but it is rare. When a used Scot comes on the market, she is generally picked up before the next newsletter goes to press.

"I can assure you that the Flying Scot does maintain its value and that a large part of this is due to the excellent work of the Flying Scot Sailing Association—maintaining the high level of enthusiasm among owners—and prospective owners."

Time to elect Governors

Our FSSA Executive Committee asks me to remind that now is the time to start the election process for next year’s District Governor. The procedure for election is outlined in our Constitution under Article XI, "District Officers," Section 2. This article is on page 14 of our 1976-1977 Handbook.

First, solicit nominees from each fleet in each District. All fleet captains and secretaries were sent a ballot form earlier this year. These fleet ballots will be distributed to the District Governors for election purposes.

Speaking of Handbooks, our new 1978-1979 Handbook is now at the printer's. We experienced a slight delay to insure incorporation of the lastest USYRU sailing instructions.

These Handbooks will be distributed to all paid 1978 members as soon as they are received from the printer.

Report regatta results

All District Governors are asked to please send their District Regatta dates and locations to Scots n' Water, Box 8, Chapel Hill, N.C. 27514, for publication in our calendar. Also, following your regatta, please send photos and write-up on all the highlights, including winners, number of boats and weather conditions, for publication.

We are proud to announce that FSSA’s Immediate Past Commodore Lewis B. Pollack, Sr. and FSSA Treasurer Michael Johnson have been elected Commodore and Vice Commodore of the Gulf Yachting Association.

SCOTS N' WATER
Taylor Affelder [FS 521] sent us an ad from the February 23, 1978, Wall Street Journal. This advertisement was placed by the Industrial Commission of a major Texas city, and showed a beautiful picture of FS 518 under the caption, "A fringe benefit." Taylor said that at first he thought he had found a missing Scot as 518 was not listed in our latest roster. Actually FS 518 is not missing, it is owned by Charles Thomasson of Corpus Christi, Texas.

Foremost donates trophy

Wally Lineburgh of Lineburgh & Company, our FSSA-approved hull insurance company, has been working with Permanent Trophy Committee Chairman Buddy Pollak on a new NAC trophy.

They have come up with a non-competitive award for "The Skipper Who Travelled the Greatest Distance to the North American Championships."

This very exciting award recognizes the skipper who has made the greatest effort in terms of mileage to attend the NAC. This trophy will be won by the "farthest" not the "fastest".

Wally has discussed this trophy idea so enthusiastically with Bob George of the Foremost Insurance Company, the Home Office Marine Underwriter, that Bob has asked if he may donate the trophy. Wally has reluctantly agreed, so this will be the "Foremost" trophy.

The Foremost trophy will be a perpetual award that will be presented initially at the 1978 NAC at Riverside Yacht Club, August 7-11.

Mystery Scot list

| 131 | 508 | 911 | 1707 | 2040 | 2639 |
| 146 | 527 | 1021 | 1716 | 2131 | 2649 |
| 212 | 651 | 1028 | 1723 | 2216 | 2671 |
| 221 | 747 | 1321 | 1740 | 2223 |
| 226 | 766 | 1547 | 1741 | 2302 |
| 325 | 812 | 1573 | 1809 | 2304 |
| 332 | 814 | 1634 | 1902 | 2307 |
| 339 | 842 | 1681 | 1952 | 2446 |
| 421 | 902 | 1682 | 2029 | 2450 |
| 425 | 904 | 1638 |

Warren Minners [FS 2814] reports that Mystery Scot 2038 is owned by Jack Pevenstein of Fairfax, Virginia.

Sponsored By FSSA

Wally Lineburgh's Insurance is Different!

1. Every Flying Scot is insured to $4100 regardless of age.
2. Every trailer insured for actual cash value up to $400.
3. Hull, spars, sails, covers and all miscellaneous equipment is included except personal effects.
4. Coverage is "all risk" while racing, day sailing, trailing and ashore year round anywhere in the U.S. and Canada.
5. Reimbursement for loss in "New or Old" with a $100 deductible. No depreciation taken even on sails and covers.
6. Damage to another boat up to $4100 applies.
7. Medical payments provided up to $2000.

This policy is available in most states where Flying Scots are sailed. Send name, address, home port, hull number and age of boat (10 years and older describe condition). Class member, yes or no. Select your area; home port determines premium. Attach check payable Lineburgh & Company.

1978 Premiums are as follows:
Area 1: $70.00 per year. Inland lakes and rivers of the U.S. including the Great Lakes and Chesapeake Bay.
Area 2: $125.00 per year. South Atlantic Coastal and tributary inland waters below the North Carolina/South Carolina state line including the Gulf Coast.
Area 3: $102.00 per year. North Atlantic Coastal and tributary inland waters above the N.C./S.C. state line.
Area 4: $15.00 per year. Pacific coastal waters and inland waters for the states of California, Oregon, and Washington.

LINEBURGH & COMPANY
1990 Bronson Road, Fairfield, Conn. 06430 (203) 255-1571

Warren has received his pocket emblem and as soon as Mr. Pevenstein joins FSSA, Warren will receive his lapel pin.

We know that with the sailing season upon us, we will be finding more Mystery Scots. For that reason, we are adding the following Mystery Scots to our list: 2639, 2649 and 2671.

We have two excellent papers in the office entitled 1) Care and Maintenance of Your Flying Scot, and 2) How to Rig Your Flying Scot. These are available at no charge. Just drop a note asking for what you need.
Johnson wins juniors

Mike Johnson, Jr. and crew lead the 1978 Mid-Winters. Mark Caraher trims jib while Bill Mason trims the chute.

The transom view of the Mid-Winter junior champions are, left to right, Mason, Caraher, and Johnson. Mike sails from Fort Walton Beach, Fla.

Chris Wientjes won the senior division.
