Sails, covers, repairs. Prices subject to change.
Officer Profile: Larry Taggart Measurer

Over the last several years there has been no one in the association who has been on the 'hot seat' as often as Larry Taggart. As measurer, he has had to make numerous decisions that have and will affect both the stability and popularity of the Scot for years to come. Larry sails out of New Orleans, on Lake Ponchartrain, right in the heart of the vaunted "Gulf Coast" region that has consistently been a hot-bed of Scot sailing for the last decade. Racing the Scot for the last 12 years, Larry has been active at all levels of yachting. He is a past board member of his home club, Southern VC, and has served as chairman of the Gulf Yachting Association Racing Rules and Sail Measurement Committees. He had also served as a Scot fleet captain and Gulf District governor prior to becoming measurer several years ago.

Larry's progress in the Class, in both administration and sailing, seems to be due both to his abiility and his tenacity. He has steadily improved as a racing skipper and has become one of the class's finest, finishing many times in "top 10" at Mid-Winters and at the North American Championships. In the last two NACs, Larry finished third and fourth; certainly a testimony to his fine sailing ability.

Sailing with junior sailors out of the fine training programs in the Scot in the GYA, Larry often credits them for their enthusiasm and the effect it has on his sailing. At this year's NAC, for example, junior sailor and frequent crew Peter Merrifield enthusiastically urged Larry to go for the seldom-seen pin-end start that helped Larry jump out to win in that race. Larry recounts another example of their infectious enthusiasm:

"While jibing the spinaker during the 1977 NAC, the boat went completely over on its side. My crew and I immediately jumped on the centerboard and righted the boat. As the boat was coming up, both crew were able to climb back aboard and began to sheet in the spinaker, thinking that I, too, had made it back aboard! They were somewhat surprised to hear me ask, as I held on to the transom line, 'Hey guys, how about letting me get aboard before we continue racing?'"

Having sailed numerous other boats,

New Publication Dates Announced

Pursuant to a change in the number of issues and dates for 1985 Scots n' Water (see this month's 'From the Editor'), the following are the publication deadlines for '84 and '85.

As always, I will hold space until the last possible moment for regatta notices.

1985 Mid-Winter and NAC Locales and Dates Set

The 1985 Mid-Winters will be held April 2-6 at Panama City, Florida. The NAC's will be hosted in Riverside, Connecticut from August 12-16. For additional information, see "The Starting Line."

Measurer's Rulings and Annual Meeting Minutes

Complete information from the Annual Meeting, including minutes and 1985 budget, and Measurer Larry Taggart's recent rulings, will be published in the December '84 issue of Scots n' Water.

Read "From The Editor" to find out more about new publication dates for Scots N' Water

FSSA Dues Statements

You will be shortly receiving your 1985 dues statement. Be aware that we are going to publish a new Membership Directory this year and you must be paid up by January 1, 1985 in order to be included. Also know that the last issue of Scots n' Water you will receive will be the January issue, unless your dues are paid. Remember: All but $8 of your dues is tax deductible!

Measurement Certificates

If you participated in the 1983 NAC at Bay Waveland VC, were measured in, and have not yet received your Measurement Certificate, contact Measurer Larry Taggart.

including one-design and cruiser/racers. Larry likes the Scot because of its stability, ease of rigging and ease of sailing. For racing, he likes the one-design aspect and the ease of trailering the boat about.

Fleet Captains and District Governors

Please get your Year-End Reports into the association office as soon as possible.

It is especially important to notify us of any changes of leadership in your fleet or district. Please include name, address and phone number of new leader. We need this information to help provide the local and district officers with the information they need.

THE Fleets IN

If you haven't seen the results you've been waiting for, be patient. Recent staff changes at headquarters have slowed the publication of some results, but things are in hand and you'll see them soon.

Larry, 38, is currently a business consultant. He enjoys diving, snow skiing (in New Orleans) and photography.
And, apparently, Larry enjoys being in the hottest seat in the association, that of measurer.

SCOTS N' WATER
ASSOCIATION SPOTLIGHT

Joan M. Burnside Memorial Fund Created

As you know by now, the death of Scot sailor Joan Burnside early this summer was a terrible tragedy and the first such fatality in the history of the Class.

In an effort to continue Joan's longstanding commitment to competitive sailing, and women's sailing in particular, a memorial fund has been established. The initial objectives of the fund will be to purchase a perpetual trophy for the annual L.I.F.S. (Ladies in Pursuit of Silver) regatta and to provide an annuity to fund annual "keeper" trophies.

Checks should be payable to:
Joan M. Burnside Memorial Fund
They may be sent to:
Robert L. Kaplan
6739 Baron Road
McLean, Virginia 22101

Fund organizers have filed for IRS tax exemption. That status will be reported when granted.

FROM THE EDITOR

Change is in the wind

As some baseball pundit once said, "you can't get to second base unless you leave first." That thought is in my mind as I complete this issue and prepare for another year as your Editor.

The first major change is that our top behind-the-scenes person on Scots n' Water is leaving Ed Eubanks' employ. Ann Collier is leaving after four years with Ed in order to study for a MBA in corporate communications at the Wharton School, University of Pennsylvania. Her work on all the layout and numerous suggestions for improving the look of the magazine have been invaluable for both former editor Paul Newton and myself. Ann is now on retainer to Eubanks' firm and will continue to lend her talents to Scots n' Water each month. I wish her luck and look forward to continuing working with her.

A small, but important, change in this issue is the more extensive coverage afforded this year's North American Championship. While I know I risk incurring the wrath of members not interested in racing, I do so feeling that this one, big annual gathering of the Class is more significant than any other single activity we have. This is the occasion when our most active members and supporters meet to build the Class through the Annual Meeting and by sailing together and strengthening the tie that binds the association together: friendship. Let me know your thoughts on this more extensive coverage, for my future consideration.

(continued on page 23)
IN PRAISE OF SERENDIPITOUS SAILING

A dedicated daysailer explains the lure of sailing beyond a triangular race course.

Roger Damio
FS 1097

This is not a polemic against racing. Nor even a polarization of racing vs. daysailing: No, no... there is indeed a place for the race, a firmly entrenched place for the excitement, exhilaration and competitiveness of one-design racing. As well as a deep, rewarding sense of achievement in squeezing that last inch or ounce or second of speed out of a finely tuned Scot.

Some of my best friends are racers. But I am not. I prefer to derive other pleasures from sailing my Scot. The point of this piece is not to defend, but rather expand upon those other nautical delights... beyond the "combat zone."

At a recent meeting of our fleet, there was considerable discussion about raising the dues to underwrite more comfortably the awards program. Along with the dues, the question was raised whether the non-racing fleet members should also participate in the higher assessments. The question was raised, incidentally, by some especially equitably-minded racers. There were no objections at all from the non-racers, all of whom were, and are, genuinely pleased to invest an extra $10 (or was it $12) in the "bottom line" (or is it the finish line?) enjoyment of our fellow racing Scotsmen and Scotswomen.

There was, however, a nuance in the discussion; an unspoken observation that has stimulated this response. In the watery world of the Flying Scots, are the daysailors, the gunkholers and the waterway wanderers some kind of seaborne second-class citizens?

When I acquired my seemingly ageless Scot, #1097, two years ago, I also inherited a library of Scot lore dealing largely with the probability of capsizing and the capability of righting that wrong. That and clam- (continued on page 20)
N.A.C. Race Analysis

In the calm that surrounds the conclusion of any major regatta, there seems to be a consistency in the type of questions asked. Most frequent are “Who went fast?” and “What was the right way to go?” In many cases, of course, those who went the ‘right way’ weren’t really fast and, unfortunately, some went real fast in the wrong direction!

This post-mortem is provided to provide you with as complete as possible, yet brief, race-by-race of both divisions of the NAC.

Remember, the accomplishments of those sailing well are, perhaps, even more significant this year as there was no ‘local knowledge’ at this neutral site. And further, what little could be pumped from any local cruising sailor usually ended up to be dead opposite what the sailors found. Indeed, following this regatta, the new knowledge locally may well be the theme of most windward legs: “Go right, good sailor, go right.”

Elimination Series

With the fleet broken into four divisions, three races were run so that everyone sailed against every competitor at least once. There is no qualifier regatta at FS NACs, as in many other classes, and the purpose of this three-race series is to separate the fleets. The top 55 percent of the fleet sails in the Championship series; the bottom 45 percent sails in the Challenger. When this series is over, and the fleets split, everyone starts fresh, with zero points, for the final five-race series.

Summary Analysis

The fleet leaders quickly found out that there was, indeed, a very heavily favored side to the course. Although it did not appear that significant in the map of the bay, there was a land mass on the right side of the course that produced a very large geographic lift. Since

Flying Scot & Windsurfing Specialists

In Stock: NEW SCOTS with our custom outhaul, cunningham, vang, and jib sheeting; adjustable universal hiking stick. You can add our WACO 360° centerboard control and custom spinnaker gear for a superb, race equipped SCOT. T-J SALES rigged boats won the ’82 NACs and three previous NACs (and everybody knows it’s the boat and not the crew or sails!).

Previously owned SCOTS: All with new-boot warranty. Call or write for details.

Parts and Equipment In Stock: All the parts for DOUGLASS or CUSTOMFLEX boats as well as WACO 360° cleats, crew hiking aid, shroud covers, custom cockpit “tent” covers, stainless or aluminum winch cranks, sailcloth centerboard gaskets, HAWK wind vanes, plus all the necessary kits to update the rigging for your mainsheet, jib sheet, vang, and spinnaker controls. Do-it-yourself instructions and photos for all our kits.

Check your Gooseneck! We have all the parts to repair the STAR MARINE/KENYON gooseneck. Our collapsible universal replaces the inadequate universal which appeared beginning about 1971. $6.50

Accessories: AIGLE boots, absolutely the best wet sailing dinghy boot; CHUCK ROAST jackets and jumpsuits; ATLANTIS PVDs and foul weather gear; ACCUSPLIT racing timers, at $40 the slickest waterproof stopwatch you can buy; LASER compasses, and much more. Call us for holiday or birthday shopping suggestions.

New Item: HARKEN HEXARATHIC® riser, form-fitting molded black plastic platform. No maintenance alternative to wood block to wedge ratchet up to horizontal. Leeward cleating is easy in the heaviest of winds! Now no excuse for cumbersome across-the-cockpit sheeting. $30 package has (2) risers, fasteners, HARKEN #150 cleat wedges, and instructions.

We ship daily by UPS on open account to FSSA members!
We repair hulls, centerboards, and sails.

Tom Ehman, Owner

OCTOBER 1984
Race Analysis

there was no practice race on Sunday, sailors did not learn about this until the first weather leg of the first race.

Throughout this series it became important that one must get a good start then go as soon as possible to the right side, where at 'point X', a large header would occur. Once on the inside of this geographically produced lift, one needed to play the small shifts within the 'alley', continually working further right and further into the lift which took the racer right to the lay-line, often earlier than one wanted, but necessarily early. While the lift was almost always there, where 'point X' was was often more elusive. At times tacking to port immediately at the boat end of the line produced a big lead; at others, to do so took one in so deep that the wind velocity died. Generally the winning skippers went a little to the center of the course then went to the right side. While sailing a little more conservatively did not produce the occasional big win that gambling and going deep right did, it did produce consistently good finishes; ones that ultimately were more important to one's overall success.

What was peculiar about this favored right side was that while it was usually favored for the Championship Division, it often was not by the time the Challengers started. Thus, even more than in the Championship, Challenger fleet sailors had to be conservative.

The Standings:

| 1. Fisher   | 1 1 2 | 3.50 |
| 2. Eagan    | 3 1 1 | 4.50 |
| 3. Fox      | 2 2 1 | 4.75 |
| 4. Barnes   | 1 2 3 | 5.75 |
| 5. Taggart  | 2 3 2 | 7.00 |
| 6. Lewick   | 2 4 4 | 11.00 |
| 7. Hall     | 4 3 7 | 14.00 |
| 8. Elam     | 5 6 8 | 14.00 |
| 9. Beaney   | 6 5 5 | 16.00 |
| 10. Wade    | 8 6 4 | 18.00 |

As you can see, most of the top 10 finishers in the Championship division were also there in the Elimination Series, with only Keleher not represented here, as he finished in 12th overall, but took ninth in the actual regatta.

RACE 1

Conditions: Westerly, 5-15, building at end. Waves less than one foot throughout the series. Sunny, low 80's.

Championship Division
The pin end was heavily favored so the leaders bunched up with Elam winning the start. Elam continued hard left wind during this race was more variable and the right side was not as favored throughout the race, as it was with the Championship group. He started two-thirds of the way down the line, towards the pin, then went to starboard immediately. Eventual series winner Dan Kolnich reached the lift sooner and led throughout the race, though More slowly closed him. On the last leg, More went farther to the right than did Kolnich and lifted to the finish.

RACE 2

Conditions: Westerly, 8-12, puffy. Sunny, low 80's.

Championship Division
Bobby Eagan executed one of the more observant and creative maneuvers of the regatta to win this race. He went right immediately off the line as others held on port tack longer to the center of the leg. As Eagan approached the expected header to leeward of the group of Lewick, Barnes and Fisher he found them being lifted to the inside so much that he was falling far behind. Looking up the course, though, crew Marc Eagan saw a cruising boat lifting big up the shore line. Seeing this, the Eagans decided to go for the shoreline even faster and actually reached off to the now bigger expected header. When they hit it, they crossed the fleet by a wide mar-
Cover his opposition and never went to the right that was so successful on the last Championship weather leg.

**RACE 3**

*Conditions:* Easterly, 5-12, building at end. Fog at start; slowly cleared.

**Championship Division**

All the leaders started at the pin end and went left towards yesterday's favored side, now the left side, since it looked as though it might be favored again, due to its geographical influence. Unfortunately, though, the expected knock and following big lift never really came. The leaders group looked hopelessly buried as adventuresome Keeler, Faeg and Elam went to the right. Coming across to the mark on starboard with both a big lift and more velocity, it looked as though they would easily beat the left-siders to the mark. Fortunately for those to the left, though, a small lift and more velocity did come towards the end of the leg and a few of them — those going less to the left — recovered and rounded the first mark in good position. Lead positions held until the last windward leg when Faeg and Elam again tested the hard right side and found a big lift, overtaking eight boats and moving quickly in on the leaders, to take fifth & sixth respectively. Finding the large lift on the new right side set the strategy for races 4 and 5, and once again showed that going right — any right! — was usually going to pay in this regatta.

**Challenger Division**

Observing the leaders in the first race, Dan Kolenich went hard left, deeper than they did, and found a big shift near the shoreline. Lifting to the mark he was never headed. On the subsequent two weather legs he stayed middle-left to cover his opposition and never went to the right that was so successful on the last Championship weather leg.

**RACE 4**

*Conditions:* E/NE, 5-12. Fog has cleared.

**Championship Division**

Larry Taggart pulled off both an unexpected and highly daring start to put him in an early commanding position to eventually win this race. With the pin end heavily favored due to somewhat predictable 10-20 oscillations, too many boats jammed the pin end forcing a general recall. Watching the boats line up for the second start, Taggart reasoned that though the pin end was still favored, people would be a little more wary of being over early, with the one-minute rule in effect. Seeing this to be the case, he came in at the pin on port and crossed the entire fleet, though just by two feet, by some accounts. He stayed on port while the rest of the leaders went to the left side on starboard. About when he was going to go left to cover, he looked up the course and saw the boats on the right side lifting big. He headed to the right side until the apparent leaders, Hall and Wade, were in sight, then short-tacked under them to leeward. Taggart then lifted to the mark on starboard while Hall and Wade had overstood. Around the mark Taggart led Hall, Wade, Fisher and Lewek. Fisher worked up to second, Lewek pulled another third, and Fox recovered to overtake Wade on the last leg. Day one leader Eagan had an eighth.

**RACE 5**

*Conditions:* E/NE, 5-10. Heavy fog at start delays race nearly two hours. High 70's.

**Championship Division**

With time to think about the race standings, it came apparent that while he had a five point lead over defending

(continued on page 10)
Race Analysis

champion Eagan, Fisher would have to sail a solid race to win the series. When the gun finally went, most of the leaders went off the line to the left side of the course, including Fisher. Eagan took a short hitch to the center to cover the fleet lower to the left and was clearly ahead of Fisher, by several positions and a great deal of distance, as the wind began to fill in from the right, burrying those deep left. Taggart, Fox and Leweck all went hard to the right, thus splitting the fleet’s leaders. Deeply buried, Fisher took a port clearing tack to go to the center of the course, then he tacked back on port to stay near Eagan, who had held still left and had not covered Fisher. The right side, again, began to look better and better as Fox, Leweck and Taggart began coming across the bay on starboard. While it looked like Fisher was in trouble as Eagan outgunned him, Taggart, Fox, Leweck and Taggart began coming across, easing out of the right. Eagan did not, Eagan finally going to the port tack layline and coming out still the leader as he got the little lift he needed as well as some velocity. Fisher went to the layline but dove back into the right side a little to pick up some more lift. Around the first mark it was Eagan, followed by Leweck, Egan, Taggart, Barnes and Fisher.

Eagan had a large lead, but Leweck and Fisher sailed well downward to close some of it. Fisher eventually passed Leweck to pull into second behind Eagan. Having made his big comeback earlier, he now needed only to sail conservatively to win the series. He did so and stayed with the front-running Eagan throughout the final legs. On the last beat, Eagan went farther to the right than did Fisher and when they tacked on the starboard tack layline, Fisher was able to gradually work up as Eagan was

Builders of the FLYING SCOT®
GREG FISHER AND
JOHN RIDDLE WIN 1984
NORTH AMERICAN
CHAMPIONSHIP

Speed, good tactics, and consistency win this year’s regatta at a neutral site.

Sailing a consistently sound and fast series, Greg Fisher and crew John Riddle won this year’s running of the North American Championship. Seventy-three boats representing 18 states and Canada participated in the series held at Royal Hamilton Yacht Club, Hamilton, Ontario, Canada. Sailing against most of the Class’ finest, Fisher and Riddle demonstrated an excellent ability to analyze the conditions present in this neutral locale, one in which, unlike most regattas, there was no real “local knowledge” on which to rely.

Most class officers, nine District Governors, numerous class notables, and several outstanding Scot sailors travelled to Hamilton with the promise of a great location, good races, and hopefully, good weather. They were not disappointed.

Saturday and Sunday

The regatta began on a very positive note as the weather for the usually hectic, often frustrating measuring-in activities changed from the typical hot, humid conditions of the last several years to cool, sunny skies, temperatures in the high 70’s, and a refreshing 10 mph breeze. With the right combination of a well-prepared and very efficient measurement committee and the fortuitous timing of arriving boats, the normally tedious boat, sail and equipment measurement — that hurdle that must be surmounted before “the fun begins” — went so smoothly that many competitors found themselves completely measured in 15-20 minutes, prompting numerous sailors to comment that “it was the smoothest measurement at any NAC that I’ve ever seen!” Certainly contributing to its success, though, was the unfortunate breakdown of the ‘official’ scale after some early measurement on Friday evening. Unable to weigh hull and centerboards both Saturday and Sunday, most contestants were denied the opportunity of being granted a Measurement Certificate that would permit them to by-pass several steps of the process in the next several years. (Chief Measurer Larry Taggart reports, however, that all other items on the certificate aside from hull and centerboard weight will be certified, necessitating only those two measurements in the future.)

In addition to the swift measurement and pleasant weather, the participants had the unplanned pleasure of witnessing a celebration of the “Tall Ships” as they visited Hamilton Harbor as part of a trans-Atlantic crossing from Poland. Thirteen ships were moored nearby, with two tied to the Yacht Club’s front pier. With flags flying, horn’s honking, and people cheering, the ships paraded for three hours in the harbor as Sunday’s measurement activities and official Opening Ceremony were conducted. It truly added a gala atmosphere to the already pleasant days.

While numerous tourist attractions were afforded by Hamilton and nearby Niagara Falls and Toronto, host Fleet 20, from Portage Lake, Michigan did its best to provide some fine social gatherings as well. The opening ceremony was capped with free refreshments and snacks under a yellow and white striped tent erected for the weekend’s festivities. With the liquid refreshment provided by Shore Sails and the first raffle of several duffles provided by The Sailor’s Tailor, friendships of past years were renewed as the sailors relaxed and enjoyed each other on this last ‘calm’ day before the racing would begin.

Finally, with the arrival of Jerry Harthman and “the Bay Hilton”, the perennial unofficial regatta central and gathering place of the great and

Winner's Profile:
Greg Fisher

Friends and family ties highlight a successful sailing career.

Sitting around a table at Royal Hamilton YC long after most competitors had begun their long drive home, what Greg Fisher did not seem to want to discuss was his current and past victories. Instead, Greg talked of long-time friendships established in sailing and sailmaking and of his clearly affectionate feelings for his family.

Greg talked of long-time friendships established in sailing and sailmaking . . .

Not that he hasn't been immensely successful. His competitive credits include winning two Highlander Nationals, the 1983 Thistle NAC, and being named a Collegiate All-American in 1975, while attending Miami University, of Ohio. Relatively new to the Scot class, Greg has won several invitational races since 1980 and has crewed with his dad, George, to a fifth in last year's NAC and to a first in this year's Ohio District Championship.

What is clearly more important to him is his relationship with friends and family . . .

What is clearly more important to him, though, is his relationship with friends and family that have been unified by sailing. Greg grew up in a sailing family headed by a father who is a long-time Lightning sailor and former Lightning Class President. Sailing at Buckeye Lake, outside Columbus, Greg spent a lot of time sailing with his dad and brother, Matt. In fact, Greg transferred to Miami from several years at Ohio Wesleyan just to be able to sail on the same team as Matt. He recounts that the highlight of his sailing career came when his brother Matt finished first in the 1977 Lightning NAC and he finished second, just one point behind.

Leaving Miami, Greg went to work for sailmaker Bill Shore in Newport, R.I. He stayed with Shore for four years, leaving to open his own Shore loft in Columbus in 1978. He opened a new loft in Cleveland this Spring. The Columbus loft specializes in one-design sails while the new loft is working on Cleveland's predominant big-boat market. A recent addition to his staff has been Craig Leweck, who took second in this NAC.

Throughout our conversation Greg stressed how much he has enjoyed the social aspect of both sailing and sailmaking, citing several examples of people he has become good friends with over the years. Greg was especially happy to have had John Riddle sail with him, recounting a long list of skills that John had that contributed significantly to both his sailing success and enjoyment at the regatta.

Greg well demonstrates what most people in competitive sailing have come to know: Success is sweet, but so much sweeter when combined with caring for others.

SCOTS N' WATER
near-great, the regatta could “officially” begin.

**Monday**

A refreshingly short skipper’s meeting preceded the sailing of the first two elimination series races. Scanning the room, it became obvious that this would be a talent-filled series. Last year’s NAC winners Bubby and Marc Eagan travelled from New Orleans to defend their title, as did the defending Mid-Winter Champion Chuck Barnes. Andy Fox, holder of four major FSSA championships, would sail again with Larry Klein, who was fresh off a Soling Olympic campaign. Long-time successful class competitor Kelson Elam travelled from Dallas to participate. Like Larry, Kelson had just finished a seven year effort to qualify for the Olympics in the Flying Dutchman class. Greg Fisher, defending Highlander and Thistle champion who crewed to a fifth last year with his father, George, returned this year on his own as George was heading for the Lightning NA’s in California. Class newcomer Craig Leueck, defending West Coast Snipe champion was also to be reckoned with, as those who knew of Craig were aware. Amongst this group and with others, most of the active sailors in the class were represented. A formidable collection of talent, indeed!

As sailors headed to their boats, contemplating the competition, they wondered aloud if the good weather and light winds would continue throughout the week, especially since so many came prepared to sail ‘light’. They couldn’t know then, but would appreciate later, that the light to medium winds and moderate temperatures would be around all week. Only as if to provide some variety, Thursday and Friday’s early races were sailed in a moderate fog that burned off as the days wore on.

---

**With 4 different brands of sails in the top 5 in the 1983 Flying Scot North Americans, which sailmaker should you choose?**

**SERVICE**

Which sailmaker will be at as many regattas as possible, not just major championships, anxious to help Scot sailors get the most out of their boat and sails? Which sailmaker will stand behind their product should you ever have a problem?

**QUALITY**

Which sailmaker as one of the top one-design sailmakers in the country upholds the highest quality standards in the business, using only the finest and fastest materials available?

**PERFORMANCE: Look at these results!**

Buckeye – 1, 3  
Ohio Districts – 1, 3  
Midwinters – 3  
Nationals – 5  
Northeast Regionals – 3  
Maryland State Championships – 2  
President’s Cup – 1, 2

Which sailmaker?  
**SHORE!**

WE WILL HELP YOU WIN.

---

Following the successful completion of the first day’s two races, Monday evening was the major social event of the week as an outdoor barbequed chicken dinner provided another chance for all the sailors to gather. With complimentary tickets from both Douglass Boat Company and Schur Sails, nearly all the competitors showed up to talk over the racing, explain their mistakes and listen attentively to those “lucky” enough to have figured out the local conditions. With only one more elimination series race the next day, many looked forward to sailing the “real” series in a few days, while
Championship

many others tried to assure themselves that if “we only have a good race tomorrow, I think we can make the cut to the Championship division.” Not worrying about the cut were the top sailors, including Eagan and Barnes, who each won a race, and Fisher who won two.

Tuesday

Tuesday’s weather, much like Monday’s, allowed the only race to be run as scheduled and the competitors returned to the dock quickly. As boats were moored or pulled, those on the fringe of the “cut” huddled around the score board with Monday’s posted standings, trying to remember where they and their competitors finished and where they might sit in the standings. As computer wizard Doug Christensen prepared the second of many print-outs that week, most sailors put these races behind them and went sight-seeing and partying. When the final elimination results were posted, Fisher led the group, followed closely by Eagan, Fox, Barnes and Taggart.

Wednesday

Wednesday brought the good or bad news depending on which division you sailed in, and people headed out to the course, many with their sail adorned by the red Challenger pennant. As the good wind and weather continued, both races were run close to schedule, punctuated only with a lunch break during which the Annual Meeting was held. (Complete minutes will appear in the December issue.) An Annual Dinner was held on Wednesday night, giving over 100 contestants a chance to change from sailing gear and casual wear to somewhat more formal attire. In surveying the scene, many commented that they didn’t know so-and-so “could fix up that good!” Those not attending sampled the local fare and many, with the competition in both divisions very close, chose to relax, preparing for the position-setting races of Thursday.

Thursday

On Thursday morning early series leaders Eagan (Championship) and Brian More (Challenger), both with 2.75 points, and the other 71 contestants arrived to find little wind and much fog covering the bay. As they rigged their boats and sailed out, however, the wind filled in, even if the fog only gradually cleared. By the afternoon race the wind was moderate and the fog dissipated, much to the relief of those without a compass who had no way to find the mark, save follow others. As the sun set, numerous sailors fussied over their boats for the last time knowing that tomorrow brought the final race in a week that seemed to go all too quickly. While serious partying took place by some, most contented themselves with a good dinner and good night’s rest. As the standings were put to bed, first-day leader Eagan found himself five points behind Fisher while Dan Kolenich took over in the Challenger fleet.

Friday

The final brought fog again, only this time thicker and without the breezes of Thursday. As rafts were formed, the largest with ten boats, the races were postponed until, and if, the wind filled in. Those in contention drifted aimlessly or rafted with others and tried to divert their attention from the “what if” that nagged in the back of the mind. Inevitable water fights and dunkings ensued as the race was postponed nearly two hours.

When the wind did finally fill in, the race was sailed and the Championship series decided as Greg and John worked their way back from an early-race hole to nip Bubby and Marc Eagan, who had led the entire race. Dan and crew Terry Dees again finished strong to win their division.

With no protests to hear, the race results were quickly tabulated as sailors prepared their boats for the long ride home. As the Awards Committee began the task of sorting out who received any of the 18 perpetual awards, 15 placing awards, and numerous recognition awards, the competitors gathered for a final post-race party sponsored by Ullman Sails on an elevated patio outside the club.

As the ceremony concluded and many walked away with awards, most walked away feeling good about their effort, enjoying their stay, and satisfied with their renewed friendships. And, of course, vowing “wait until next year!”

OCTOBER 1984
Daysailing

Or,ous, amorous paragraphs about the ingenious Sandy Douglass design that combines in one small boat the virtues of a lively one-design racer and a reasonably safe and comfortable family day-sailor.

To quote from a four-page brochure headed “The Versatile Flying Scot”:

“Yes, the FLYING SCOT is in a class by herself. Created for fiberglass more than other boats, she combines those qualities most wanted for family daysailing, strict one-design class racing, and exciting planing (without the need for acrobatics). We think this is why we are told ‘the SCOT is like no other family or racing sailboat on the market’.”

So daysailing with family and friends would appear to be as legitimate a function of the Scot as racing. Perhaps even a preferred activity since it is invariably mentioned first in printed Scot materials.

Regardless of the letter of the law, a better lure for me, at least, is an afternoon of serendipitous sailing shared with a variety of congenial guests (including family) and, hopefully, someone who has never sailed before (a racing ‘no, no’).

The idea of traversing the same triangle, tacking or jibing around the same two-gallon Clorox bottles with the same one-or-two-person crew, week-in, week-end, and week-out, seems like such a waste of beautiful boat and glorious day. As unthinkable as confining one’s spouse to the kitchen, bathroom, or bedroom in a magnificent palace!

We are situated in Westport, Connecticut, on Long Island Sound. The waters are sparkling, but the harbors are ‘dirty’ with shoals, rocks, islands, even a lighthouse. Just getting in and out is an adventure!

Just east of us is Cockenoe Island with a partially hidden interior lagoon, a delightful spot for a dip or a picnic. A few miles further east is incredibly beautiful Southport Harbor nestled deep in the heart of a narrow waterway lined with stately colonial mansions reminiscent of a bygone era. Then there’s Fairfield Beach, Black Rock Harbor, the Housatonic River, and Stratford, with its American Shakespeare Theater.

Or, on a whim, one might head west past Srite Island’s Scot Fleet 142 and poke a curious bow into Norwalk Harbor or Wilson’s Cove or Rowayton’s Five Mile River or Stamford’s busy Yacht Haven complex.

This summer I want to cross the Sound and explore the Long Island shore from Port Jefferson west to Northport, Centerport, Cold Springs Harbor, Oyster Bay... who knows?

That’s the point, the whole point... serendipitous sailing, exploring secluded coves and busy town beaches, openly admiring handsome, unforgettable, waterfront estates and inwardly admonishing those regrettable, ugly, waterfront industries. Then mooring or berthing for the night at a Mariner’s Inn I’ve never seen before.

Yes, I wish the Scot were a more comfortable overnighter and five feet longer. But a versatile, fun, go-almost-anywhere daysailer she is and I wouldn’t trade my nautical rambles for any prescribed, restricted triangle no matter how golden trophies!

This summer I also intend to drop the hook, drop the sail, drop a line and fish. Yes, fish! For flounders and stripers. You’ll see me out there, you racers. As you chase the gold and the silver, I will hopefully be chasing a ‘blue.’ I wish you luck and a great day and I’m sure you wish me the same as we both enjoy our Scots... in our fashion. All of us, in Scot-land yard!

When Roger is not out happily daysailing and cruising the beautiful and interesting area in which he is privileged to sail, he spends his shore time working in advertising and marketing in Westport, Connecticut. He usually sails his Bonita with at least three other kindred souls.
Oriental Sailing Social

The Oriental Sailing Social, sponsored by FS 27, was held July 14-15 at Oriental, NC. This multi-class invitational regatta saw 54 boats competing on the open waters of the Neuse River.

Saturday saw light wind with only one race run. Two races were planned for Sunday but only the first was completed as a storm started down the river just minutes after the second race started, forcing it to be abandoned. The Ragan Trophy, which goes to the winner of the largest class entered (the Scots had 22 boats) was won by Harry and Karen Carpenter, of Deep Creek Lake, MD.

Carolina Governor’s Cup

The competition for this year’s Governor’s Cup, sponsored by the Carolina Sailing Club on Kerr Lake, was one of the closest in recent memory. Three classes met on June 16-17th to contest for the trophy which goes to the skipper of the yacht who beats the largest number of competitors. Although they didn’t actually race against one another, the competition was between the Scots, Tanzer 16 and Isotope catamarans.

The Tanzer’s had the best chance of winning since they brought 32 boats to Saturday’s race. The Scots and Isotopes each brought 29. As of Saturday night it looked like the Tanzer fleet had the cup well in hand as Bob and Pattie Lamb had two bullets for a total of 61 boats beaten. The Scots had a chance as Craig Leweck, of Columbus, Ohio, also had two firsts to compile 54 points.

While the Scots and Isotopes each had two less boats on Sunday, the Tanzers lost six, thus giving the Scots a chance at the cup if they won and the Tanzers had a seventh or worse. Craig did his best for the cause, again winning the final race, but the Lamb’s again won giving the Tanzers a total of 86 boats beaten to the Scots 80. The Isotopes finished third with 77.

Congratulations to visiting Scot sailor Craig Leweck who did his best to keep the cup in Scot hands.

Notes:
1. While people seem interested in new boats, there seems to be little evidence that they are faster than older ones.
2. While hull weights were only taken on about 20 boats, all were above minimum on both hull and centerboard weights.
3. #742 is about 50-60 lbs. heavy, according to last year's weigh in. Does that put an end to speculation on the effect of weight in a Scot's performance?
4. Until 1981, NO FS NAC had been won with only 2 people in the boat. Since then, boats with only 2 aboard have won NAC's in '81, '83, and '84.
5. Within a normal wind range of 5-15, it appears that having more or less weight on board makes no difference in sailing the boat to speed.
6. Though hard to measure exactly, a 'sloppy' rig tension would allow the mast a great deal of fore-aft, and side-side movement. A tight rig would allow virtually none. Most everyone sails with something in between.
7. 6 sailmakers are represented in the top 10.

Mystic Mariner

CHANDLERY

Flying Scots insignia in red and white on navy blue Mariner V.

Beautifully embroidered...the Mariner V is a blended Creslan garment that holds its shape through repeated washings...an ideal weight for year round wear.

The Mariner comes in S, M, L, XL. Ladies should order appropriate men's size...$24.95.

Send your check, money order, or credit card information (please include expiration date) along with $2.00 for shipping and handling to: Mystic Mariner Chandlery,

P.O. Box 278
McHenry, MD 21541

THE STARTING LINE

April 2-6 — 1985 Mid-Winter Championships. St. Andrews Bay YC, Panama City, FL. Entry form and information in January and March issues of Scots n’ Water.

CAPITOL DISTRICT

For details on regattas in the Capitol District contact the host fleet, shown in parentheses, or any one of the following: Governor Harry Carpenter, 214 N. 11th Street, Oakland, MD 20815; CBYRA Representative Lewis Newby, 3105 Edgewood Rd., Alexandria, VA 22302; District Reporter John Clickner, 1632 St. Marie Ct., Virginia Beach VA 23464.

Oct. 20 — Last Chance Regatta, GRSA, Richmond, VA (155)

FLORIDA DISTRICT

Fleet 151, The Rudder Club, Jacksonville, FL, invites your participation in the following regatta. Contact Dennis Burgoon, 1670 Atlantic Blvd., Jacksonville, FL, 32207. (904) 398-1670

GULF DISTRICT

Oct. 20-21 — Second Annual FSSA Cajun Country Championship. Fleet 153, Lake Athens, TX. Buddy will be back to defend; won’t you come sail with us, too? Contact Al Rees, 111 Ronel Blvd., Lafayette, LA, 70503 (318) 234-0878.

Oct. 20-21 — Great Scot, Fleet 118, Birmingham Sailing Club, Lake Logan Martin. Contact: John Fundin, 3020 Brook Hollow Road, Birmingham, AL, 35243, (205) 967-8234.

OTHER REGATTAS

From The Editor

More changes will be occurring starting in the new year. The biggest is that Scots n’ Water will now be published six times a year instead of eight. The reasons for this are numerous. First, since we have been increasing ad columns somewhat over the past few years the 16 page format began to be limiting in the amount of information that could be provided to you. While 8 issues of 20 pages would solve the problem, your Board of Governors and I felt that it was prohibitively expensive at this time. Second, there seemed to be much genuine confusion about when the magazine came out, prompting both irritation and misplaced anger directed at the Association. Third, there has been some repetition in announcements and regatta notices that I felt could be reduced somewhat without causing a problem. For these, and many more reasons, the magazine will be published six times a year and should arrive the 15th of the month (the U.S. Postal Service willing). You may want to take note of the new months you will be receiving Scots n’ Water:

- January
- March
- July
- September
- May
- November

Regatta organizers, especially, will want to review the revised schedule and due dates for information, including regatta notices. The magazine will always be at least 20 pages and will be 24 pages at least twice, most probably after Mid-Winters and the NAC. As we hopefully generate more income through an expanded membership base and increased advertising revenue we will be able to increase the page amounts, thus improving communication, and become more valuable and entertaining.

In an effort to increase the involvement of all members of the Association, I will be adding a few more regular columns. I am asking all District Governors to submit reports of activities happening in their area so you, and the rest of us, can learn more about each other. I am also going to begin a Fleet Spotlight in which a different fleet will be described each issue. Again, the purpose being to increase contact with one another and share good ideas. Are you proud of your fleet? If so, drop me a line so we can highlight your fleet in a future issue!

This magazine should be yours. My role should be to guide it and organize it for you. For most members of the Association, Scots n’ Water is the Class. Thus I feel it is not only your right to have input into its direction, it is your obligation. Let me know what you want to see and read about. Drop me a postcard! If you’re afraid I’ll ask you to write the story, send it anonymously! But do tell me what you want and need to know about!

It’s been a good first year for me as your editor. I hope that you have enjoyed the magazine as much as I have enjoyed putting it together for you. My greatest fun, though, has come in getting my new boat and traveling to regattas to meet with you. Like Hal Walker, I’m open to your invitation to sail! Here’s hoping I’ll be able to meet with you to begin or renew sailing friendships. Good Sailing!
