1995

Great 48 Regatta

May 6-7, 1995
We Have Met The Competition

Friendly Service.

North Sails Perform

North Sails are known for their performance in competitive sailing, and we've seen them shine in recent events. Congratulations to our clients who have achieved great results in the past.

- **North American Championship**
  - 1st in the Challenge Series
  - Congratulations to Ross Dowsett

- **Scott Sailer's Sails**
  - Bill's sails are faster for lighter teams and flatter water
  - Congratulations to Kelly Gage

- **Fall Discount Begins**
  - Special fall discount begins September 15th!

- **Discount Details**
  - Discounts vary by location and class.

- **Contact Us**
  - For more information, please contact us via phone or email.

We are proud to have helped so many championship teams over the years - with the unbeatable service that helps keep them that way.

And He Is Us.

Some Tips on Running a Successful Regatta

by Dave Jacobsen, FS 4937 President

First check with other fleets in your district and surrounding districts to make sure your regatta dates don’t conflict with other regattas. Then clear dates with the host yacht club.

Establish committee heads for the following: race, judges, protest, registration, food, housing, publicity and trophies.

Get your notice of regatta to the editor with time to spare. Check the publication deadlines for dates. If you want to have your “Notice” in more than one issue, let the editor know. Include in your notice dates, cost and contact person etc. The more info the better but be concise.

Invite your Special Olympic sailing athletes to your event. Contact your State Chapter for the contact person or call me.

At registration indicate the cost for breakfast, lunch and supper. Include menu choices. Also display shirts etc. and cost.

At the skippers’ meeting introduce the commodore, other club commodores, class officers and district governors. Participants like to place a face with the name. Also, ask if there are any announcements, e.g. future regattas, future candidates for governors or class officers etc.

Race course. Use large inflatables, not government marks. This should eliminate local knowledge favoritism.

Keep the race course simple. Avoid identifying marks as X, Y, Z, T, and Q. Instead identify as olympic, gold cup, windward/leeward, twice around, etc. Also, give a compass heading to the windward mark.

Mention how many places will receive trophies and don’t forget crew trophies, they are part of the team.

Invite the donor of any trophy to your regatta. If there is a perpetual trophy, remind the winner that he or she is responsible for the well being of the trophy and that it must be returned to the next year’s chairman in time for that event.

Finally, support participant’s regatta by your fleet members attendance. You can’t expect them to come to yours if you don’t attend theirs. And by the way, you may find that your race results have improved at club races. I am by no means an expert on this subject. I hope that this information will be helpful. Let’s hear from you.

In Memorium

John was a dedicated officer, a competitive sailor and an exceptional friend.

In memory of John, the family has established a memorial fund for The Special Olympics International Sailing Association for those wishing to contribute. Please send your check to: SOISA (Special Olympics International Sailing Association), care of me, David P. Jacobsen, 376 Old Sherman Hill Road, Woodbury, CT 06798.

I shall miss him,
David P. Jacobsen
FSSA President

From the Editor

This entire issue, provided by District Governor Sterling Gunn and Flying Scot people within his district is a classic example of what I envisioned when I started District Highlights. My heartfelt thanks to Sterling and all those who participated. Hope everyone else enjoys the issue. There is a lot to learn from this very active district.
DEAR SUNSHINE:

I'd like people to see what is available and the dates so they can start blocking out their time.

I have talked with all the available parties -- Dave Jacobsen, Greg Fisher, Tom Ehman, Peter Seidman, Jeane Rotunno, etc. What I am going to do is put on two things in conjunction with the NAC's -- a clinic in advance and a cruise in company afterwards.

June 28 (Friday) and June 29 (Saturday) myself, Harry Carpenter, Greg Fisher and Tom Ehman will run a clinic for beginners and novice sailors and racers at Oswego. We will concentrate on people new to racing and winning, on the juniors and women who will be preparing to race on Sunday, but the clinic will be open to everyone, and there will be no charge. I am hoping to attract 20 to 30 people who would not otherwise consider attending the NAC's because they perhaps would feel it was too competitive.

In addition, there will be evening talks, instruction, video, etc. geared to the novices during the week of the NAC's.

Also, we will be pairing up all who desire it, in a buddy fashion - the novices with the rock stars to help them through the experience.

Finally, to attract this family group I will be running another cruise on the St. Lawrence River in the 1000 islands area (just around the lake from Oswego) starting on the 6th of July and running for a week. This will be a guided tour of towns and sites in the U.S. (upstate New York) and Canada with daily down river sailing, and stops at locations each night where motels are available for those who desire, and where we will be doing a group dinner at a restaurant. Owners can camp or sleep on board their boats if they desire.

At the conclusion of the cruise we will transport the individual drivers back to the starting location to pick up their cars and trailers, traveling back to the ending point of the cruise to load their boats for home.

Between now and then we can hype this whole thing with a couple of articles in S&W on novice things like travelling, boat camping, and dealing with the kids, etc.

If anyone has questions or suggestions, please get in touch with me.

Acrylic covers last “Twice as Long”?...
Twice as long as what?

Here are the simple facts:

A white acrylic cover lasts an average of 3-4 years, colored acrylic about 5 years. Our least expensive Poly Army Duck cover lasts an average of 7 to 10 years. Now that's long! We know, because we've been manufacturing quality one design boat covers for over 20 years. And we make both Acrylic and Poly Army Duck covers.

Acrylic covers are OK for light duty, they're light weight and colorful but they won't hold up to outdoor winter storage or trailering. And the dark colors hold heat which can cause serious damage to your boat!

Poly Army Duck covers are great for heavy duty service, winter storage, trailering and mooring. This heavy long lasting fabric is available in your choice of three light colors.

Other manufacturers have imitated our cover designs but none has matched our outstanding quality. Our fabrics are finished to our specifications and we put more reinforcements at stress points than anyone!

So, when you're ready for a new boat cover, choose the quality standard of the industry... a cover by The Sailors' Tailor.
The regatta attracted 35 boats from as far away as Ct, NJ, PA, and MD as well as from here in the Carolinas. The competition was excellent as noted in the top 10 finishers. The weather was great, with blue skies and 80 degrees. The first race was sailed in 5 to 10 knots of breeze and the top finishers figured out that you had to favor the right side of the course. The second race was started in 5 knots but then unfortunately quickly died to almost nothing. It was very trying to keep the boat moving in the wave slop. Sunday morning was glorious, with 70 degrees, blue sky, fresh breeze (10 knots) and flat water. It was one of those mornings that it's great to just be alive, and then to add in sailing really made the day. Race number 3 was a great success. Lunch and trophies rounded out the regatta, and our friends from the North country departed our land of warm May weather.

1995 Oriental Sailing Social

By Bill vonReichbauer (FS 3759)

While most of the venues for the Carolinas District Singletary-Helmold Series are sailed on inland lakes, there is one regatta which is always special—the Oriental Sailing Social. This regatta is sailed on the coastal waters of the Neuse River, just a few miles from Pamlico Sound. The small town of Oriental, NC, is a sailor's paradise.

This was the 33rd annual regatta, which has a long and colorful history with area sailors. Flying Scot Fleet 27 is the host organization for this regatta which is reserved for one-design sailboats. Because of location and timing (the second weekend in July), the event has drawn national level attention. A number of classes have held their regional or national championships at Oriental, NC, and have used the Oriental Sailing Social as an excellent tune up for their class events.

Serving as Regatta Chairs this year were Bob & Beverly Murdock (FS 4720). Race management and administration was provided by the Oriental Dinghy Club, which has an affiliation with Flying Scot Fleet 27 and the Carolina Sailing Club.

The weather for the July 8-9 weekend could not have been better. Saturday saw bright blue skies, temperatures in the low 80's, and a steady 8-10 knots from the southeast. Scoters from all over the Carolinas District were in attendance, with a total of 17 registered for the event. With an almost unlimited area to set the course, long windward-leeward legs are the norm, and the lead changed hands several times as competitors played the wind shifts while dodging an occasional crabpot. At the end of Saturday's races, Dick Schultz (FS 1885) and Joe Brake (FS 620) had come away with wins. Everyone retired to the Trawl Door restaurant for the traditional Social where good food, drink, and company were in equal shares.

Sunday proved to be another great sailing day. Winds were slightly stiffer (11-14 knots), and this brought some of that challenging chop which only the Neuse River can dish out. At the end of the race, George Evans (FS 3519) had grabbed a bullet.

But the steady consistent performance of Bob & Beverly Murdock (FS 4720) proved to be the winning margin. Based on the strong turnouts of Flying Scots, the Murdocks also won the Bill Myatt Trophy, which is awarded to the skipper beating the most boats over the total of all races in a sloop-rigged class. This trophy honors Bill Myatt who was a driving force behind the growth of sailing and the Flying Scot class in central North Carolina.

OVER 10,000 SATISFIED CUSTOMERS purchased Sailing Master® 1. We asked them what new feature they wanted most and they responded: **2 Players**. One father wrote, "It would be really neat if my boys could race against each other or me." As another customer put it, "My boss races a Mumm 36 and I want to kick his butt!" Our customers asked for it, here it is: **Sailing Master® 2** is designed to let you race against another human sailor and up to 8 computer boats (of course you can also race alone against the computer).

We guarantee that Sailing Master® 2 is the most entertaining and instructive sailing product you can buy. Skippers report that Sailing Master® 1 has helped them win on the water while parents and instructors use it to introduce students to sailing and racing. Now Sailing Master® 2 turns your computer into a "chess board" that provides a pure test of racing skills. You and your opponent sail identical boats controlled with the arrow keys and mouse. The competition provides an amazingly accurate simulation of both fleet and match racing tactics, especially the **prestart**.

**Features include:**
- 1 or 2 Players • Restart • 10 Boat Fleet • 10 Skill Levels
- Sound • Wind Shifts and Puffs • Bad Air Effects • Sail Trim
- Boat Heel • Adjustable Course • Basic Rules Enforced
- Easy-to-use Controls • Multiple Views • And Much More

Fleet 48 sails out of the Lake Norman Yacht Club. We have over 45 dues paying members that include racers and cruisers. We normally kick off our year in December with our annual meeting which includes a catered dinner at the club. Officers are elected, awards are given, and activities for both the past and upcoming years are discussed. In 95 we hosted the Wife-Husband, and through efficient planning we were able to involve almost every fleet member in some capacity. It was exciting to be a part of the team and to see all the hard work that goes into a successful regatta before the first warning gun sounds. In 97 we will host the Nationals giving us another opportunity to pull together.

Like many fleets, racing is the primary focus. We host the Great 48 annually in the spring which is traditionally our largest event. This year we had over 35 boats on the line. The Lake Norman Yacht Club schedules about eighteen days each season for a club series, and three invitational regattas. Normally 5-12 Scots show up for the club racing, and generally over 20 attend the invitational events.

Contrary to popular belief winds are not always light and variable on Lake Norman. Whitecaps occur regularly on the lake, but typically not on race days.

This year we held two fleet cruises. The first was a moonlight cruise which was proceeded by a cook-out in which the fleet provided the steak dinner, and the members brought the rest. 35 people attended. The second was held late in September on a Friday evening and we sailed between 6-8 p.m. This time dinner followed and the fleet bought the dessert. Cruising events prove to be a great way to meet new members and introduce novices to the sport.

In previous years the fleet has sponsored a community sailing day. The local newspaper writes up the even: ahead of time and interested sailors make contact with us. The day begins with 30 minutes of basic on-shore instruction followed by sailing on beautiful Flying Scots. Typically 5-7 skippers donate their boats and their time. The event is free and attended by 10-20 interested sailors. We need to find a way to expand our community sailing effort because it is good for the community, and good for the sport.

"AT LAST" A "One Design" Insurance Policy Custom Tailored
For the Active One Design Racer

- Low cost, same rates coast to coast-
- No old age surcharge, surveys not required-
- All risk coverage, agreed value policy-
- 12 month coverage for unlimited navigation and trailering in continental U.S. and Canada- including, $300,000 marine liability, $1,000 medical payments, $10,000 uninsured boater coverage-

Underwritten By One of North American's Premier Marine Underwriters "For Racers By Racers"
1996 Flying Scot® Mid-Winters
St. Andrews Bay Yacht Club,
Panama City, FL - March 25-29, 1996

ELIGIBILITY
All competitors shall be current members of FSSA.

Divisions
Championship and Challenger

Tentative Schedule
Monday, March 25
Registration, sail measurement, afternoon “fun” race.
FSSA Board of Governors meeting, FSSA Board of
Governors dinner, welcoming party

Tuesday, March 26
Registration, sail measurement, skipper’s meeting, two
races (back to back - both fleets), evening entertainment

Wednesday, March 27
Two races (back to back - both fleets), cocktail party

Thursday, March 28
Two races (back to back - both fleets), banquet, (and tro-
phies, if possible), entertainment

Friday, March 29
Race (if necessary), trophies afterward, or family fun day
on Shell Island

The crystal blue Gulf waters, white sands, friendly
dolphins and beautiful St. Andrews Bay beckon you
to join us for the 1996 Mid-Winters. The yacht club,
located in the tranquil Cove area of downtown Panama
City offers the perfect setting for a week of fun and com-
petition. Facilities include main club with full service re-
aurant, lounge, pool and showers surrounded by casual deck
and grassy lawn overlooking the Bay. There is also a sepa-
rate sailing center with showers. We have limited space
for camping, but have several motels within fifteen min-
utes which offer discounts to Scot sailors. A breakfast buff-
et and lunch specials will be served daily, and bag lunches
will also be available (real ones from the kitchen — no
more vac-sealed)! There will be activities each night
including our famous cocktail party, featuring heavy hors
d’oeuvres and live music. Everyone seemed to like having
the banquet on Thursday night, so we will continue with
that format, including trophy presentation if all the races
are finished. Otherwise, trophies will be awarded immedi-

Flying Scot Fleet 27
by Beverly Murdock FS4720

Flying Scot Fleet 27 is based in the Triangle (Raleigh-Durham-Chapel Hill) area of North Carolina and sails primarily on three local lakes: Kerr Lake on the NC-Virginia border, Falls Lake, and Jordan Lake. Although Fleet 27 is not affiliated with a yacht club, it has been one of the strongest fleets in the Carolinas district for over 35 years. Members of Fleet 27 participate in numerous sailing activities, both racing and non-racing.

A phone tree keeps fleet members in touch with each other and informed about upcoming activities throughout the year.

At fleet meetings and seminars during the winter months, fleet members socialize and plan for the upcoming season, as well as share information about various aspects of sailing and racing.

At the local boat show in mid-February, fleet members talk to and share their experiences with potential boat owners and fleet members. Several days after the boat show ends, the local Scot rep (Bob Murdock) hosts dinner at a local restaurant for the fleet members who helped with the show.

In mid March, a winter’s-end get-together, also known as S.W.E.A.R. (Scots’ Winter’s End Annual Rally), is a combination social and pot-luck dinner and marks the beginning of the sailing season.

At a work-on-your-boat day early in the season, members help each other with boat maintenance and rigging improvements.

Racing with the local sailing club (Carolina Sailing Club), which holds monthly races on one of the local lakes, is an important aspect of the sailing season for a number of fleet members. Some also race in the Singletary-Helmold series, which consists of a regatta hosted by each fleet in the Carolinas district, the Governor’s Cup Regatta (hosted by the Carolina Sailing Club), and the district championship regatta.

The Oriental Sailing Social, which was established by the founding fathers of the fleet over 30 years ago, is the Singletary-Helmold regatta hosted by Fleet 27 and continues to be one of the more popular regattas for Scots. Held at Oriental, NC, it offers sailors who usually sail on inland lakes an opportunity to do some coastal sailing.

At “fleet days,” which are scheduled throughout the season, fleet members sharpen their boat handling and racing skills. When requested, experienced skippers or crew sail with others to coach and demonstrate boat handling techniques.

Fleet members often get together for informal daysailing and to help each other with sailing and racing.

For more information about Fleet 27 or any of its activities, contact Bob Murdock at 919-286-0001.

Mid-Winter Championship
Continued from page 10

Pete Sylvester, Regatta PRO, phone, (904) 872-0454. Upon receipt of your registration, we will send you a package with directions to the club, updated schedule of events, motel info, etc.

Looking forward to seeing a lot of you there!
1995 Hoop Pole Regatta
August 19th and 20th
by Dick Schultz

The 1995 Hoop Pole Regatta was sponsored by the Morehead-Beaufort Yacht Club and Flying Scot Fleet 78 of the Morehead City Boating Club. North Sails of Beaufort and Layline Boating Equipment provided door prizes.

The Marlin Club with air conditioning, swimming pool and launch ramp, hosted the regatta. Bob Buckland served as Regatta Chairman.

Under sunny skies, high water, due to hurricane Felix and 12 mile per hour breezes, three races were sailed on Saturday afternoon with two on Sunday morning. Highlighting the Regatta was a shore dinner cooked by John Warrington and his crew. Shrimp, clams, chicken, sausage, corn on the cob and small potatoes, steamed with "Down East" sauce provided the main course. Homemade cakes were enjoyed by all.

In the Flying Scot Class Larry Lewis and his son Tim won three races Saturday. George Evans and wife Wendy were second in the three Saturday races. Joe Brake had two thirds and Dick Schultz was third.

On Sunday Larry Lewis won both races although pushed hard by George Evans in second. Starling Gunn was third in the fourth race and Joe Brake was third in the fifth race.

TOP 5
1. Larry Lewis (#3933)
2. George Evans (#3519)
3. Joe Brake (#620)
4. Dick Schultz (#1885)
5. Starling Gunn (#1104)

Schultz, Selby Win D.G. Bell Regatta

TEAM SWEEPS THREE RACES TO RETAIN TROPHY

Two sailboat classes, Flying Scots and the open class, participated in the 32nd sailing of the three-race D.G. Bell Memorial Trophy Regatta on the Fourth of July in Bogue Sound. Competitors were greeted by sunny skies and 10 mph winds.

Richard Schultz, Pine Knoll Shores, and Emily Selby, Morehead City, aboard a Flying Scot, successfully defended their 1994 victory sweeping all three races.

The Flying Scots dominated competition, grabbing the top three spots in overall standings. Joe and Roger Brake, Beaufort, placed second overall, Ted Odell, Morehead City, and Bobo Hockmeister, Beaufort, came in third, all in Scots.

Top finishers in the open class were Julie Scope and Roger Mays, Beaufort, sailing a Vanguard 15. Tod Spears, Atlantic Beach, sailed his Vanguard to a second-place finish in the class. Bill McClure, Beaufort, sailing a San Juan 21, was third.

The regatta was sponsored by the Morehead City Boating Club. Gib Arthur served as race committee chairman, assisted by Paul Helm and Norman Macartney. John D’Antonio and James B. Jr. Willis manned patrol boats.

The D.G. Bell Memorial Trophy was first sailed in 1963 and was donated by Dr. L.J. Norris Jr. Dr. Norris wished to honor his cousin who was an instrumental force in sailing on Bogue Sound.

Starting preparations at the Hoop Pole Regatta.
Racing Together
by Wendy Evans, FS 3519

When I tell people that I am a competitive sailor and crew for my husband I get a variety of responses. Some wince as if I’ve inflicted some pain upon them and say things like, “…And you are still married?” Or even more morose, “…you mean to tell me you haven’t killed each other?” Others respond with pure amazement that a married couple can work successfully as a team to achieve more than joint bank accounts. I began to wonder if married couples racing together during tough, competitive regattas was uncommon. If it was, what makes some couples successful while others drift into sailing widowhood?

Over the years of racing with George I’ve realized we have something special which can be reached by anyone.

No matter how you and your spouse communicate, loud and obnoxiously, passive-aggressively, or juicy-sweetly, when you are on your boat there has to be limits. Out on the lake where sound travels easily, one good rule is NO YELLING. It’s tacky and plain bad sportsmanship. When you get in a boat, you have to assume different roles. You are now more than husband and wife, you become a team in a sporting that requires speed, skill and most of all, communication. You must find ways to communicate that are comfortable and efficient. This is not the right time to discuss the kids, or money or other topics which may throw off the balance of the team. Set limits. “Let’s talk about that later” is something I might hear from George. I’ve learned that a phrase like that is a gentle way of reminding me, “hey, get your mind in gear, we’ve got a race.”

Keep your mind on the race and somehow, the common goal of winning races will cause successful communication and sailing.

Preparation should also be mutual. George and I always try to sit down together a few days before a race to plan. We’re somewhat traditional in our routines, in that I will do most of the shopping and meal planning while George gets the boat ready. He loves to make lists, where I tend to improvise and do things from memory. This works for us, but another couple may choose to prepare differently. It depends on your style and often times, your schedules. However you choose to prepare make it a group effort. If one person is doing all of the work the risk of rancor runs high and the team is dead. Don’t bother starting the race stewing. Every mistake will seem monumental.

Which brings me to another rule; KISS and MAKE UP, preferably before the race. A sailboat is no place to hold a grudge. If you happen to get into a scuffle before a race put it behind you before the start, if you make it that far. In reality, you shouldn’t even board your boat angry. An impending race is the best solution for any argument George and I might have. Yes, we argue. We are no different than anyone else. This seems to be the most limiting factor for couples racing together, the fear of fighting. Our rule works, kiss and make up, then get on with the race. Just forget what ever it is, because most of the time it’s not worth remembering anyway. This is no time to be macho, or pout, because you risk losing your crew. I have heard of wives jumping overboard and swimming for shore, and although I’ve never done it myself it remains a distinct possibility if certain courtesies are not respected. But, things never should go that far with racing couples who have set limits and respect them and each other.

One more rule which should go without saying, HANDS OFF DURING THE RACE. I found myself feeling quite the voyeur during the Wife-Husband Regatta at Lake Norman last year, when a couple we were racing against got, well…A bit more physically entangled than we would dare to on the race course. Public affection is one thing, (George likes it when Iutter him with sunscreen!) but limit the more exciting stuff until you get home, or at least off the lake, please. At most regattas, there always seem to be plenty of tents around if you can’t wait!

Racing together, if you remember some basic guidelines, like communication without yelling (tacky), try to put those tensions behind you before the race, help each other prepare and hands off during the race, can actually strengthen your marriage. For two people who love each other and love sailing nothing else should matter except spending as much time together as possible, doing what you both love. If you happen to win a regatta or two, the energy between you as you collect your trophy is tonic for a good marriage and incentive to do it again.
Mayor’s Cup
Lake Townsend Yacht Club • Greensboro, North Carolina
by Vance Kinlaw

The Lake Townsend Yacht Club hosted its 18th annual invitational regatta, the Mayor’s Cup, on September 9-10. A total of 48 competitors, representing five classes, entered the event. Flying Scots comprised the largest one-design class, putting nineteen boats on the water.

The regatta started on Saturday, when extremely light and fitful winds forced postponement of all scheduled races. Although disappointing, the fleet’s early return to shore did provide an opportunity to start the party early. Crews enjoyed live music, gourmet pizza, and raffle drawings for sailing gear courtesy of Layline, Inc.

Fortunately, a cold front moved through on Sunday morning and brought forth excellent sailing conditions: temperatures in the 70s and sustained northeasterly winds of 10 knots. The race committee, chaired by David and Malinda Richbourg, was able to run three races before 1:00 p.m. After an uncharacteristically slow start in the first race, Larry and Starr Lewis (FS3933) roared to two first place finishes in the second and third races to win the overall class title. The large turnout of Scots also allowed the Lewises to reclaim the Mayor’s Cup Championship from Starling Gunn and Regina McHaffey (FS 1104), a championship the Lewises have dominated for many years. Other trophy winners in the class were George Evans (FS 3519), second, Starling Gunn (FS1104), third, and Don Smith (FS 5005), fourth.

Breaker
Sailing Shorts

Technically Designed Sailing Short
Unrestrictive, breathable, quick-drying, double-seated. Breaker Shorts are not only tough as nails but help you and your shipmates move quickly and hike hard all regatta long. Insertable foam protectors, Fanny Pinders, will take the pain provoked in the test of naut-hiking. Waist adjustment straps and deep pockets with non-corroding zippers make this attractive gear functional for hard sailing. Change your clothes this season & shift into high gear, sail flat, fast and focused!

Breaker Shorts: Nylon: $45.00
Optional Fanny Pinder: $9.95
Size: 26-44
Color: White, Red, Royal, Navy,
Test/Navy, Finska/Navy, Sunrise

STEERING TIPS

It goes without saying that steering is more critical to racing performance than boat preparation and even sail trim. Ever run up against a skipper who could sail a bathtub faster than you? Steering can't be purchased, produced with tools or learned from pictures. Only time on the water will help a skipper improve his or her steering skills. Steering, even in smooth conditions, is a difficult task requiring intense concentration which can be hard to provide in a racing fleet. For many skippers, steering becomes exasperating when waves and choppy water are added to break our concentration. Here are some tips for steering that I use to keep the boat moving as fast as possible.

Tip number one is for steering upwind in smooth conditions: Do not steer, adjust the mainsheet. Set the sails for maximum speed with a small amount of weather helm. To head up, sheet in harder and to head down, ease the sheet. Increasing the mainsheet tension will tighten the mainsail leach causing the boat to drive to weather. Do not correct by pulling harder on the rudder, let the boat go up. However, do not go so far that the boat slows down. Ease the sheet to allow the boat to fall off. Naturally, some small movement of the helm will be needed to respond to wind shifts, but sheet steering can be used with great effect when you're fighting off a fast boat on your weather hip and you want to point as high as possible with a short burst of speed.

Tip number two is for steering in light wind and choppy seas: Sail low for consistent speed. Trim the jib for light wind, not too tight and with a small amount of weather sheet to round out the front. Keep the outside telltale luffing and constantly resist the urge to head up. Sailing low is the best way I have found to even out my speed and keep the boat going. Heading up and hitting a wave wrong will stop you dead in the water and getting going again is frustrating as other boats pull ahead. Don't let it happen, sail low and go for consistent, even speed.

Tip number three is for steering in medium to heavy wind and choppy seas: When heading into waves, stay low for speed. When heading across the waves, stay up and point. In nearly every race I have ever been in where there was wind and waves, one tack was always favorable in heading more across the waves and the other tack generally headed more into the waves. When sailing into the waves, keep the boat moving. Then on the other tack use your pointing ability when there is less a chance of hitting a wave and stopping the boat.

COMPASS STRATEGY

When is the compass most important? At the start of the race. Why? Because knowing your compass course will allow you to pick the favored end of the starting line in real time and immediately take the most favored tack to the first mark.

Before each start sail as much of the upwind leg as possible. This is very important to get a feel for how the wind is shifting, and how often. For example, sail the upwind leg and notice that on starboard tack we are lifted 20 degrees by the wind shift. No one tacks in a lift, so we keep going to see if the lift holds. If it does not, we end up back to our original course after the shift passes. Now we know the lowest (headed) and highest (lifted) compass courses on starboard tack. Because we have been headed (down to the original course), we tack to port, and look for the shift again. From our headed course on starboard, we have tacked to the lifted course on port. We note the compass course. As the shift (starboard tack lift) comes in again, we (on port) will be headed. We note the headed port tack course. Now having completed an upwind sail we know the highest (lifted) and lowest (headed) compass course on each tack.

Knowing these courses allows us to pick where we want to be at the starting signal, pin, mid-line or boat end. It works like this. As we approach the starting line (almost always on starboard tack) we check our starboard tack on the wind compass course. If we are on or near the headed compass course, we try to start near the pin. If we are on or near the lifted compass course we try to start at mid-line or toward the boat end. This approach puts us at the favored end of the line.

This approach also positions us to be on the inside of the lift. If we are on the starboard tack lift at mid-line or boat end, we are on the inside of the lift. If we are on the starboard tack header at the pin, we will be on the inside of the lift when we tack to port. Even if we do not start in the best spot, we still know what to expect so we can immediately take advantage of the coming wind shift.

If you use your compass at the critical times, like after the start, you can gain boat lengths. Just enough to put you in front, in clear air and in control. And don’t forget, when you round that down wind mark on another

Continued on page 17
boat’s transom and you want to pass her, check your compass heading.

TRAILER TACTICS

When I bought 3519, she had been on a trailer for a long time. Unfortunately the trailer used rollers to support the hull. It was not hard to see that the hull had indentations where each roller came into contact. Well being good with epoxy fairing compound, strong enough to sand forever and handy with a paint spray gun I fixed the uneveness in the hull. But I didn’t want the problem to return. So I called Harry Carpenter at the factory to discuss this problem and here is my solution. The boat should sit on two rollers; one at each end of the centerline trunk on the centerline. This supports the boat on the strongest part of the hull. Then the hull should be balanced using a bunkboard on each side as far from center as possible and barely touching the hull. On my TeeNee trailer this meant adding a 2”x12” down the center of the trailer so I could space the centerline rollers at the correct positions (9” apart if I remember correctly). The 2x12 also gave me a walking surface. For the side bunks I replaced the rollers with a 4”x4” with carpet cover. I made the mistake of using thick napped carpet that held water and my epoxy paint job blistered. I recommend a thin outdoor carpet and be sure to cover the sharp edges to prevent damage to that beautiful hull when you bring it up the rollers.

HULL PREPARATION

How do you prepare an old hull for racing? Lots of work. Here is what I did on my boat which sat on trailer rollers for a long time. First I removed the centerboard and turned the boat upside down. I taped off the waterline stripe to prevent damage and sanded the bottom in the vicinity of the roller indentations with a relatively rough (80-100 grit) dry sand paper. The idea is to cut the surface gloss, not remove the gelcoat. I did the sanding by hand using a board sander (available at most automotive paint stores) because it gives me a greater appreciation for the feel of the hull and power sanders tend to cause damage by digging in if not controlled properly.

Using a board sander also highlighted the indent because the deeper indented areas will remain untouched and glossy. I circled them with a pencil to mark the spots and hand sanded the indent to break the gloss. To fill the indents I applied West System epoxy with West System microballoon fairing additive using a plastic trowel. West System works great, and it sands fairly easily if properly mixed and cured. After the first layer of fairing, I sanded and sanded and sanded. Then I faired some more, and sanded some more and faired some more and sanded some more. Two tips, if you can see a sharp edge between the fairing and the bottom you’re not done sanding, if you put too much fairing on you just have to sand it off!

For the final fairing I moved up to 180-220 grit paper and sanded the entire hull. In doing this I found some other areas in need of fairing which I filled. However, primarily I did this all over sanding job to prep for epoxy painting. Epoxy paint will fill the sanding grooves pretty well on the first coat and definitely on the second coat or third coat.

What second or third coat? The first coat of epoxy merely highlighted all the imperfections from my sanding job and showed me where to start filling and sanding again. So I sanded some more, by hand with a board sander or a rough 220-320 grit wet and dry paper and finished the fairing. Now I had reached perfection and it was really time to paint.

My philosophy is that epoxy paint is just another fairing compound to be sanded off until I am satisfied. I am also a perfectionist and will use more than one coat, using different colors of paint for each layer so I can immediately see the imperfections as I sand. I use a 320 or 400 wet and dry in my hand (no tools) and make sure I break the gloss for the next coat. I use lots of paper and do not try to make it last forever.

You have to go with 400 grit wet and dry if you plan on finishing the hull with a polyurethane gloss coat. On the other hand, I apply a final coat of epoxy and keep sanding with progressively smoother grit wet and dry. You can sand to your hearts desire, 600, 1000, 1200, 1500, 2000 grit, followed by buffing compound, followed by wax. Whoa, what a mean shine. Now I definitely want the trailer to treat this hull right!

P.S. Don’t wax the deck.

TAPERED SPINNAKER SHEETS

I use tapered spinnaker sheets for two reasons; one, they are not hard to make using today’s line, and two, they are lightweight, strong and don’t collect water. Let’s face it, spinnakers don’t look good when heavy sheets are

My Secrets and Shared Tips
Continued from page 17

dragging in the water on a light air
day. The weight of the spinnaker has
to be considered in a package deal,
spinnaker, attachments and sheets.
Waterlogged sheets are HEAVY.

Tapering is easy, anyone can do it,
but you may need a piece of line to
even try this process, you definitely
should practice once, and it is easier
if you use brand new line when you
finally go for it. Measure your sheets
to determine where you want the
taper to be and whip the core and
cover at the taper point. A whipping
equal to the line diameter will suffice.
Cut the free end and slide the cover
back to expose the core. Seal the end
of the core. Slide the cover back near
the taper point and cut just the cover
about 6 inches from the taper point
and take off the loose part. Now for
the tricky part you need to practice.
Unweave the cover into separate
strands. This is time consuming and
sometimes frustrating but when you
get done you will have multiple
strands which can be sealed at the
end. Put each strand through the eye
of a sail needle and sew the strand
into the core by passing it down the
interior of the core as far as possible.

Do this with each strand, but change
the distance where it exits the core to
achieve the taper. When you are done
cut off the excess strands hanging out
of the core and you are done.

If you want you can splice the sheet
to tie spinnaker. Pass about 6 inches
of the sheet end through the clew ring
and sew it back through itself using a
fiddle then pass the end back into
the core and down the interior as far
as it will go. Whip the splice and
you're done. Get good advice from
your marine supplier about which line
to use. I used Dyneema.
The History of the Singletary-Helmold Series
by Bob Murdock (F/S 4720)

In 1972, Bill Singletary and a friend, Dick Helmold, were concerned about the poor attendance by district members at Invitationalals. They collaborated to come up with the Helmold Series, a series of regattas for which four trophies would be awarded based on cumulative points. They decided to use the high-point system in which a point is earned for each boat beaten. Helmold purchased the trophies, and Singletary served as administrator. The awards were highly coveted, and participation increased significantly.

The original series included races sponsored by fleets in the Carolinas District, plus the Governor's Cup (the Oriental Sailing Social is Fleet 27's event), Midwinters, and Nationals. But the gas shortages and subsequent increases in fuel costs in the mid 70s resulted in removing the long distance regattas (Midwinters and Nationals) from the series.

As it became more and more difficult for everyone to make every invitational (people forgot that sailing was their first priority and began to think their occupations were), another shift in philosophy resulted in allowing one throw-out regatta per season, so the almost always faithful could miss a regatta and still remain competitive for the Helmold Series trophy.

In 1987, Bill Singletary passed away, and, in his memory, Dick Helmold asked that we rename the series the Singletary-Helmold Series. 1988 was the first year trophies were awarded for the newly named series. The coveted awards still serve as an inspiration to attend the Invitationals in our district.

Dick Helmold has since moved to Florida and has not sailed a Scot in years. But he remains committed to funding the Series trophy. We are very grateful for his continued support.
Flying Scot Canadian Championship
August 16-18, 1996 • Stony Lake, Ontario

Fleet 148 and the Stony Lake Yacht Club will be hosts for the Flying Scot Canadian Championship to be held in 1996 at Stony Lake Ontario, August 16-18. This will be our 8th biennial FSCC, and we look forward to seeing all of our Scot friends from previous years, and also to welcoming many "first timers" to our unique regatta.

Accommodation and all meals for the FSCC96 will be included in the registration fee. We billet our visitors with cottagers on the lake, but there is also limited hotel accommodation available (at your own cost).

The US $ does go farther in Canada (at the time of

20
The Third Annual Flying Scot Fleet 126 Cruise took place on Smith Mountain Lake (less than two hours from Greensboro) the weekend of July 27-28. This cruise is just getting better each year—the first year there were two boats, last year we had three boats and this year five boats participated. The cruisers included Bill and Millie McVey on FS3916, Fields and Carol Gunsett on their new FS4770, Starling and Glenda Gunn on FS1104, Steve and Debra Raper with Fred and Pam Kniffin on FS4051, and on their recently purchased FS2610 were Frank and Tonya Little with Phil and Ruby Weatherly. Thanks to Bill for organizing the cruise this year.

We and the Kniftins stayed at Bernards Landing which is located right next door to the VISA yacht club. Our condo was in the same cove as the marina and restaurant and had a dock only a few steps from our patio. The dock was especially convenient; we could go out and come in as we liked and not have to haul the boat out till we left on Sunday. The Littles and Weatherlys stayed at a campground near Hales Ford Bridge. The rest of the group had accommodations down past where the Blackwater River channel comes in; this is about an hour’s sail to Bernard’s Landing. The Gunns stayed at Penhook and the McVeyes and Gunsets at Highland Point.

The tentative plan was for everyone to meet at Bernard’s Landing at 10:00 a.m. on Saturday. It was misting rain as we were getting the boats ready and by the time we launched, the rain had set in. The good news was that it was warm, there was plenty of wind and the sailing was great! We sailed around the area for several hours looking to link up with Starling, Bill and Fields but missed them. As we came back in we saw three Scots docked next to the marina and Debra told us that the missing sailors could be found in the restaurant. We stopped by the condo to dry off a bit, then joined the Blackwater bunch to swap stories and have lunch at the Landing restaurant. While we were inside, it started raining again—by far the heaviest rain of the day. Good timing! After lunch, the rain stopped and the sun started peeking through the clouds. We did a little bailing and sponging and took off to escort the Blackwater bunch part of the way back as they headed home.

After seeing them off, Fred and I sailed into a cove to take a closer look at a marina we had spotted. As we got into the cove, a small flock of jet skis and powerboats tagged around us. Several of the powerboats were doing 720’s (playing ‘let’s see how fast we can go in a small circle’). As we were coming back into Bernards, we noticed a number of cruisers from VISA setting up for a race directly in front of our cove. After we docked, the starting gun went off and I watched from the patio as they ran a short windward/leeward race.

After breakfast on Sunday morning, Fred, Pam and myself left the dock about 9:00 am. The weather was clear and the wind was still good so we sailed across the channel to Vista Point then back up past the VISA yacht club area with Pam at the tiller part of the way. We came back in long enough to get our gear packed, then Fred and I sailed the boat around to the launching ramp; the wind had lightened up by this time. As we were approaching the ramp we spotted two Flying Scots coming up behind us in the cove and heard a chorus of ‘Hey, come out and play!’ It was tempting, but we needed to get back so we packed it in and headed for Greensboro.

I hope participation in this annual event continues to increase. The cruises have been a lot of fun and are a chance to spend more time with our fellow sailors and get to know each other a little better. 

Canadian Championship

(Continued from page 20)

writing US $1.00 buys goods and services worth C $1.35) so it should be possible for US Scot sailors to enjoy our regatta at a very reasonable cost. Early registration is advised—we are limited as to the numbers that can be accommodated. To receive a Regatta Information Package, complete, and mail the coupon on page 23.

Cruising Trips to Remember

by Jeff Johnson (F/S 4645)

Some of my fondest cruising memories aboard my Flying Scot 4645 include trips to the Gulf Coast. For 4 out of the last 5 years I have had the pleasure of trailering my Scot from my home in North Carolina to the Mississippi Gulf. It was in this area that I first learned to sail in 1978. I was living in New Orleans and taking sailing lessons when my instructor, Bob Brown, warned me that sailing is like heroin - you just get hooked. Five boats and 17 years later I must confess that my addiction is incurable. From time to time my wife reminds me of an argument that I made when I was about to buy my first boat - a Force 5 - "All I'll ever need is something I can carry on my car top."

My sailing companions on these trips have been Starling Gunn, the FS Carolinas District governor, and my original sailing instructor, Bob Brown from Slidell, La. Our typical trip has been to launch from the Biloxi Yacht Club and sail offshore to Ship Island and back the first day. After sailing the 14 miles to Ship Island we enjoy a leisurely lunch at Fort Massachusetts, the island's main attraction. This historic fort is a wonderful place to tour and the island has abundant wildlife.

Our return trips have been quite exciting as we've departed late afternoon in 18-20 knots of wind. The last three return trips have been broad reaching under spinnaker with the boat planing at about 9-10 knots. It is hard to describe the thrill of planing on the same point of sail for an hour and a half and covering 14 miles. It hardly gets any better than that.

Our second day consists of sailing on Lake Pontchartrain at New Orleans. Last year we happened to be there the final day of the J/24 mid-winters. It was lots of fun to be out on the water with J/24's from all over the country. And it is always enjoyable to sail inside the harbor at the Southern Yacht Club and view the vast number of boats at this fine club.

Our third and final day is spent back in the gulf in the Biloxi area. It seems that there is always some exciting sailing going on around Biloxi. This year we got to observe one of the regattas in the GORC (Gulf Ocean Racing Circuit). On another trip we were able to watch match racing between two large schooners. Once we were sailing down the channel near the Biloxi Yacht Club and saw a Flying Scot approaching on a spinnaker reach. I was excited to notice his boat number "3".

Needless to say, after Starling Gunn's first trip to the gulf 4 years ago I've had no trouble recruiting him for subsequent trips. I heartily recommend this area for cruising fun in a Scot. ▲

Always-Ready boarding step

Now there's a safe, reliable way to get back in your boat. Our boarding step is easy to install (under 10 min.) and it's easy to deploy from in the water. Stainless steel and anodized aluminum parts make it light weight and strong. Performance tested. It will not interfere with use of the mainsheet. Satisfaction guaranteed.

Stowed

Deployed

The Always-Ready Boarding Step costs $29.95 plus $4.00 shipping. Maryland residents add 5% sales tax. Fleet discount available. Checks accepted.

SCOTS 'n WATER
1995 North Carolina Governor's Cup Regatta

By Bill VonReichbauer FS 3759

The skies were “Carolina Blue” on Saturday, June 17, as sailors arrived at Kerr Lake for the 38th annual Governor's Cup Regatta. This regatta, which has been featured in American Sailor magazine, is one of the largest inland regattas held in the eastern U.S. Sailors from as far away as Texas were in attendance. The regatta is hosted by the Carolina Sailing Club, the 1987 US Sailing One Design Club of the Year. CSC is the home club for Flying Scot Fleet 27.

CSC Rear Commodore Ned Nutt was chairman for this year's regatta, ably assisted by Bob Murdock (FS 4720), who served as director of on-water activities and SRO for one of the two race courses. Judge for the 5-race event was Senior Judge Joe Zammit.

Saturday's three races were sailed in 6-8 knot winds, and saw the strong head-to-head competition which has become the trademark of Scot sailors in the Carolinas District. At the end of the day, Starling Gunn (FS 1104), Don Smith (FS 5005), and Larry Lewis (FS 3933) all had bullets. Skippers and crews adjourned to an excellent social hour at the Henderson Point Glass House, followed by the traditional North Carolina Bar-B-Que and chicken dinner. The music of a jumping blue grass band got everyone's toes a tapping.

On Sunday, we were welcomed with another sunny day; however, as sailors headed to their race courses, the lake was just about glass. But patience paid off, and after about a half-hour delay, the winds filled in to a steady 8-10 knots. Two more very competitive races were sailed, with Don Smith and Starling Gunn each taking another first place finish.

When the tallies were in, the winner in the Flying Scot Fleet was Larry Lewis (FS 3933). With the strong turnout of Flying Scots, Larry was presented the Governor's Cup Trophy.

1995 Governor’s Cup awards Ceremony: Second place winner, Don Smith and crew accept awards as first place winner Larry Lewis looks on.

which is awarded to the skipper beating the most boats in their class over the total of all races. Larry also set two new records — winning the Governor's Cup trophy more times than any other skipper (5) and the most consecutive wins (4 years in a row). Congratulations Larry!

A total of 23 Flying Scots participated, making this another strong showing for the class in the area.

Minna and Curtiss Torrance

Some of the information in this article was reprinted from Lake Norman Magazine, Cornelius, N.C.

Minna and Curtiss Torrance, longtime members of Lake Norman Yacht Club, received the 1993 South Atlantic Yacht Racing Association's Sportsmanship Award at the annual winter meeting on Hilton Head Island in February. Both 77, they started racing sailboats together in Boston Harbor in 1947 and now race a Flying Scot. The couple moved from Denver to Matthews two years ago but still spend weekends in their camper at LNYC, where he served as commodore in 1965. Photo/courtesy John Slater.

SCOT'S 'N WATER
Parts ... When your boat needs a part, Flying Scot® Inc. has it and we'll ship it within 24 hours! We also supply covers, trailers, and other accessories designed and built specifically for Flying Scots. All Scot owners are automatically on open account.

New Boats ... We build new Scots to order and take used Scots in trade.

Repair & Refurbishing ... We offer factory repair or refurbishing for your Flying Scot.

Aquameter Sailor II Compass and Mount...
features large yellow course line and 45 degree red bearing lines, along with an angle of heel indicator. Mount is molded fiberglass to fit the deck just all of the mast and is held in place by shock cord for easy installation. Price complete. .................. $59.00

Plastimo Contest Tactical Compass and Mount...
3½” card - read the horizontal surface for bearings. Read the vertical surface at the 45 degree lubber line, tack through 90 degrees and you will read the same number on the opposite tack’s lubber line. Mahogany mount is held in place by shock cord for easy installation. New, lower price for 1990, complete. ............... $220.00

Trailer Aluminum Trailer...
Lightweight extruded aluminum designed to keep the boat low for easy access while rigging. Overall width is 7.5” and features 4.80 x 12” tires. Can be picked up at the factory or trucked down and shipped by truck (assembly required)................ $1510.00

Stainless Steel Mast Sleeve...
Custom formed, welded and polished stainless steel to reinforce the base of the mast. Complete with screws .................. $125.00

Rudder Lift System...
Features custom stainless bracket for lift line and shock cord to pull blade down and hold it down. Great for weed prone or shallow areas. Complete with fasteners. .................. $103.50

Swim Ladder...
Telescoping, stainless steel, two-step ladder that stows flat to the transom. Stainless grab rail through bolts to deck. Low profile to reduce mainsheet snags. Easiest way to get into the boat from the water. Complete with fasteners. Ladder ....... $110.00
Grab Rail .................................................. $27.00

Main sail Flotation...
For added security against turtling or burying the mast in the bottom. No modification to the boat or sails required for installation. Weight is approximately 2 pounds. Price complete. .................. $125.00

Flying Scot® Shirts & Caps...
Classic Polo Shirts with left breast pocket. Soft, 60% cotton/40% poly interlock knit.
Sizes S—XXL
A. White with Flying Scot Insignia embroidery ...................... $25.00
B. Navy with Flying Scot Sailboat embroidery ...................... $28.00
C. Teal Plaid w/ Teal Bill .................. $9.00
D. Navy Plaid w/ Red Bill .................. $9.00
E. Royal Blue .................. $9.00

Spinnaker Pole...
15’ pole, pole with heavy duty forspars and fittings designed to snap on without pulling the continuous wire tripp. ................................................... $17.00

Motor Bracket...
Two-part bracket that bolts to the transom. Stand-off parts stays with the engine so that the bracket has a low profile when the engine is not installed. Yoke that bolts to the transom is painted cast aluminum and the stand-off part is stainless steel with a hardwood block for the engine clamps. Complete with fasteners and template. .................................................. $110.00

Forespar Stay-Set Tiller Extension...
40” length, aluminum tube, black sponge grip and ball end. Stay-set end holds the tiller extension exactly where you leave it. Price complete. .................................................. $53.00

Ronstan Fixed X-10 Tiller Extension...
40” length, black anodized aluminum fixed tube with black ‘Hyperion’ grip and rubber ball end. Urethane universal joint offers unlimited movement and unique fixed or snap-on/snap-off mount system. Complete with bolts. .................................................. $42.00
Clip to hold extension to tiller ................................................. $1.80

Ronstan Telescopic X-10 Tiller Extension...
29” to 48” telescopic, same construction as fixed X-10 above with twist-lock adjustment. ‘Hyperion’ grip on outer tube and ball end on inner tube, urethane universal joint. Complete with bolts. .................................................. $70.00
Clip to hold extension to tiller ................................................. $2.25

Bow Flotation Bag Kit...
Reserve buoyancy to help keep the bow of a swamped Scot up and aid in rescue. Kit comes complete with mounting blocks and hardware. Gelcoat and/or resin not included. Price complete. .................................................. $49.00
Replacement bag only .................................................. $36.00

Transom Port 4”...
Aids in rescue of swamped Scot by allowing water to drain through transom while the boat is towed. Complete with screws. Looser hole saw available. .................................................. $6.25

Flying Scot® Inc.
Prices do not include shipping. Maryland residents add 5% sales tax.
A price list must be enclosed with each order. For faster service, please supply your Navy or Master Card account number.

FS 4355 — Gordon Douglas. Seldom used. Stored on covered lift. All fittings included, cockpit cover, Schurr sails, main and jib with windows. Spinnaker and lines (never used). Many extras! Fresh water sailed. Tee Nee Trailer with tie down rig, used once. 2 hp Evinrude motor. Off white deck and hull, blue bottom paint. Excellent Condition — 8 years old. Asking $7,000.00. Call J.C. Whitaker (540) 774-3719.

FS 4370 — Douglas white hull, white deck, blue stripe. Motor bracket trailer. Blue cover. All in excellent condition. Schurr sails, spinnaker, pole, etc. Not used for 5 years. Boat has blue bottom paint. Located in NE Ohio. $5800. George Rooting (216) 874-4541.

NOW IS THE TIME TO UPDATE YOUR FLYING SCOT with custom rigging kits from Midwest Aquatics: outhaul, cunningham, boom vang, jib sheeting, main sheeting, and spinnaker; crew hiking line; under-boom mainsheet loop; centerboard gasket. Easy to install. Complete instructions provided with each kit. Also available: stainless halyard cranks; telescoping tiller extensions; spinnaker poles; tiller, shroud and cockpit covers; the best mast-head wind indicators. Check your gooseneck, halyard winches and standing rigging; we stock replacements.

Same-day shipping for most Flying Scot parts, accessories and rigging kits.

OUR NEW SCOTS are unique. We take delivery of the hulls without running rigging, then add our custom rigging systems to produce what many say is the best quality-rigged Scot available. A Midwest Aquatics Scot by itself may not be faster, but 25 years of satisfied customers all over the country think our Scots are easier, more comfortable and, therefore, more fun to sail and race.

"PREVIOUSLY OWNED" SCOTS. Our used Flying Scots offer tremendous value. We thoroughly inspect every listed boat twice — once before listing and then before delivery. All necessary repairs (sails, centerboard, etc.) are then made so your focus can now be on sailing and enjoying your boat — not being a handyman. We have several excellent choices on hand, all with Midwest Aquatics’ one year warranty. Call us today for our current listings.

BOAT HOISTS. Lake sailors, you can end bottom-washing and dry-sailing hassle with our aluminum “A”-shaped boat hoist with custom-designed Scot bunk package. Lifts four feet, 1300 lb. capacity. Lightweight and low maintenance. Complete with tie-downs and bottom anchoring system. Shipped common carrier partially assembled, or pick up fully assembled on your Scot trailer.

SPECIAL SCOT SERVICES. We repair centerboards, do fiberglass repair, and straighten masts. Expert personalized instruction is available, whether learn-to-sail or race-to-win; one-on-one, or with your entire family or crew. Also fleet and club seminars.

SAILING SPECIALISTS. Midwest Aquatics has many satisfied long-time customers throughout North America. We also sell and service Optimist, Sunfish, Laser, Barnett, Hobie, Interlake, Capri, and Compac. Please call or fax us for details and prices today.

WE SHIP UPS DAILY. VISA AND MASTERCARD WELCOME.

8955 Dexter-Pinckney Rd. Pinckney, Michigan 48169-9430 313-426-4155 Fax 313-426-5532
Design

The Schurr Sails design team has over 50 years combined experience in the development of fast, easy to set and trim, sails on the market today.

Our record speaks for itself with numerous wins in present and past local, regional, and national events.

Fabrication

Schurr Sails continues to produce the highest quality, most durable sail on the market today. By using quality material and individual construction techniques, each sail is guaranteed to be consistent with the design.

Service

Over the years Schurr Sails has been a proud sponsor of many Flying Scot Association events. With so many class members this is one of the strongest associations in the country and we guarantee to continue to provide you with the individual attention you deserve.
